STYLE AND FORMAT OF THE WASHINGTON STATE REGISTER

1. ARRANGEMENT OF THE REGISTER

Documents are arranged within each issue of the Register according to the order in which they are filed in the code reviser's office during the pertinent filing period. The three part number in the heading distinctively identifies each document, and the last part of the number indicates the filing sequence within an issue's material.

PROPOSED, ADOPTED, AND EMERGENCY RULES OF STATE AGENCIES AND INSTITUTIONS OF HIGHER EDUCATION

The three types of rule-making actions taken under the Administrative Procedure Act (chapter 34.05 RCW) may be distinguished by the size and style of type in which they appear.

- (a) Proposed rules are those rules pending permanent adoption by an agency and are set forth in eight point type.
- (b) Adopted rules have been permanently adopted and are set forth in ten point type.
- (c) Emergency rules have been adopted on an emergency basis and are set forth in ten point oblique type.

3. PRINTING STYLE—INDICATION OF NEW OR DELETED MATERIAL

RCW 34.05.395 requires the use of certain marks to indicate amendments to existing agency rules. This style quickly and graphically portrays the current changes to existing rules as follows:

- (a) In amendatory sections—
 - (i) underlined material is new material;
 - (ii) deleted material is ((lined out and bracketed between double parentheses));
- (b) Complete new sections are prefaced by the heading NEW SECTION;
- (c) The repeal of an entire section is shown by listing its WAC section number and caption under the heading REPEALER.

4. EXECUTIVE ORDERS, COURT RULES, NOTICES OF PUBLIC MEETINGS

Material contained in the Register other than rule-making actions taken under the APA does not necessarily conform to the style and format conventions described above. The headings of these other types of material have been edited for uniformity of style; otherwise the items are shown as nearly as possible in the form submitted to the code reviser's office.

5. EFFECTIVE DATE OF RULES

- (a) Permanently adopted agency rules normally take effect thirty days after the rules and the agency order adopting them are filed with the code reviser's office. This effective date may be delayed or advanced and such an effective date will be noted in the promulgation statement preceding the text of the rule.
- (b) Emergency rules take effect upon filing with the code reviser's office unless a later date is provided by the agency. They remain effective for a maximum of one-hundred-twenty days from the date of filing.
- (c) Rules of the state Supreme Court generally contain an effective date clause in the order adopting the rules.

6. EDITORIAL CORRECTIONS

Material inserted by the code reviser's office for purposes of clarification or correction or to show the source or history of a document is enclosed in [brackets].

7. INDEX AND TABLES

A combined subject matter and agency index and a table of WAC sections affected may be found at the end of each issue.

WSR 89-15-000 ERRATA (Inserted by the Code Reviser) SEATTLE COMMUNITY COLLEGES

[Order 52, Resolution No. 1989-6-Filed June 26, 1989]

Reviser's note: WAC 132F-120-090 was filed permanently with the Code Reviser's Office in Order 52, Resolution No. 1989-6, on June 26, 1989. Through a clerical error, the date filed was shown as June 6, 1989. Pursuant to RCW 34.04.040(2), the effective date of this section will be July 27, 1989.

WSR 89-14-095 EMERGENCY RULES DEPARTMENT OF HEALTH

[Order 2831—Filed July 3, 1989, 8:15 a.m.]

Date of Adoption: July 3, 1989.

Purpose: The new Administrative Procedure Act (APA), chapter 34.05 RCW, becomes effective July 1, 1989. These rules govern the formal procedures prescribed or authorized by the act, including adjudicative proceedings, declaratory orders, petitions for rule making, and other topics.

Citation of Existing Rules Affected by this Order: See below.

Statutory Authority for Adoption: See below.

Pursuant to RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: Section 250 of the new APA [RCW 34.05.250] requires the Chief Administrative Law Judge, Office of Administrative Hearings, to adopt model rules of procedure under the act. Section 220 (1)(a) [RCW 34.05.220] permits an agency to adopt its own rules. An agency must adopt as much of the model rules as is reasonable and state the reasons for any variation in the order of rule adoption. The model rules were filed on June 15 and become effective on July 15. The result is that if this agency does not adopt its own rules it may have no rules for some critical activities during the first two weeks of July. Further, this agency's rules contain variations from the model rules described in and for the reasons shown below.

Other Findings Required by Other Provisions of Law as Precondition to Adoption or Effectiveness of Rule: Yes, see below.

WSR 89-15-002 PERMANENT RULES DEPARTMENT OF LABOR AND INDUSTRIES

[Order 89-06—Filed July 6, 1989, 4:26 p.m.—Eff. August 7, 1989]

I, Joseph A. Dear, director of the Department of Labor and Industries, do promulgate and adopt at the General Administration Building, Room 334, Olympia, Washington, the annexed rules relating to chapter 296-62 WAC, General occupational health standards, is amended with federal-initiated changes to be at-leastas-effective-as the comparable federal regulations, 29 CFR 1910.1000, as published in Federal Register Volume 54, No. 12, dated January 19, 1989, amending rules affecting Air contaminants—Permissible exposure limits (PELs). Major changes in the federal standard make 212 PEL's (in three tables Z-1, Z-2 and Z-3) more protective, set new PEL's for 164 substances not currently regulated by OSHA, and maintain other PEL's unchanged. The federal change includes short term exposure limits (STEL's) to complement 8-hour timeweighted-average (TWA) limits, establishes skin designations and adds ceiling limits. The OSHA Table Z-1

^{*}Note location changes from previous schedule.

includes "transitional limits" columns. WISHA previously enforced more stringent regulations, so the impact to WISHA rule changes is substantially reduced. The Table 1 format has been restructured, like OSHA's, to include additional information which makes the table more user friendly. The state table includes 10 new substances, 112 substances, with revised STEL's, and changes the ceiling exposure limits for 6 substances. Most state changes are a result of updating our limits to be in conformance with the 1988-1989 American Conference of Governmental Industrial Hygienists, threshold limit values and biological exposure indices tables. The amended sections are WAC 296-62-075, 296-62-07501, 296-62-07503, 296-62-07505, 296-62-07507, 296-62-07510, 296-62-07511 and 296-62-07515 (includes Tables 1 and 2).

This action is taken pursuant to Notice No. WSR 89-10-066 filed with the code reviser on May 3, 1989. These rules shall take effect at a later date, such date being August 7, 1989.

This rule is promulgated under the general rule—making authority of the Department of Labor and Industries as authorized in chapters 34.05 and 49.17 RCW and chapter 1-21 WAC.

The undersigned hereby declares that the agency has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW) and the State Register Act (chapter 34.08 RCW) in the adoption of these rules. APPROVED AND ADOPTED July 6, 1989.

By Joseph A. Dear Director

AMENDATORY SECTION (Amending Order 73-3, filed 5/7/73)

WAC 296-62-075 AIR CONTAMINANTS. (1) An employee's exposure to any substance listed in Tables 1 or 2 of WAC 296-62-07515 shall be limited in accordance with the requirements of WAC 296-62-07501 through 296-62-07513.

- (2) The following definitions are applicable to the limits in Tables 1 and 2.
- (a) Time weighted average (TWA) is the employee's average airborne exposure to any 8-hour work shift of a 40-hour work week which shall not be exceeded.
- (b) Short term exposure limit (STEL) is the employee's 15-minute time weighted average exposure which shall not be exceeded at any time during a work day unless another time limit is specified in a parenthetical notation below the limit. If another time period is specified, the time weighted average exposure over that time period shall not be exceeded at any time during the working day.
- (c) Ceiling is the employee's exposure which shall not be exceeded during any part of the work day. If instantaneous monitoring is not feasible, then the ceiling shall be assessed as a 15-minute time weighted average exposure which shall not be exceeded at any time over a working day.
- (d) The terms "substance," "air contaminant," and "material" are equivalent in meaning for WAC 296-62-075 through 296-62-07515.

(3) The transitional limits listed in Table 2 of WAC 296-62-07515 may be utilized to determine the need for engineering controls until December 31, 1992.

AMENDATORY SECTION (Amending Order 82-1, filed 1/15/82)

WAC 296-62-07501 AIRBORNE CONTAMINANTS. (1) Permissible exposure limits (PELs) refer to airborne concentrations of substances without regard to the use of respiratory protection and represent conditions under which it is believed that nearly all workers may be repeatedly exposed day after day without adverse effect. Because of wide variation in individual susceptibility, however, a small percentage of workers may experience discomfort from some substances at concentrations at or below the permissible limit, a smaller percentage may be affected more seriously by aggravation of a pre-existing condition or by development of an occupational illness.

- (2) Permissible exposure limits refer to time-weighted concentrations for an 8-hour workday within a 40-hour workweek which shall not be exceeded.
- (a) The <u>cumulative</u> time-weighted average exposure for an 8-hour work shift shall be computed as follows:

$$E = \frac{C_a T_a + C_b T_b + \ldots + C_n T_n}{8}$$

where:

E is the equivalent exposure for the working shift.

C is the concentration during any period of time T where the concentration remains constant.

T is the duration in hours of the exposure at the concentration C.

The value of E shall not exceed the eight-hour time-weighted average (\underline{TWA}) limit in Tables 1((5)) or 2((67)) (see WAC 296-62-07515), for the material involved.

(b) To illustrate the formula, assume that substance A has an 8-hour time weighted average limit of 100 ppm as noted in Table 1 of WAC 296-62-07515. Assume that an employee is subject to the following exposure:

Two hours exposure at 150 p/m Two hours exposure at 75 p/m Four hours exposure at 50 p/m

Substituting this information in the formula, we have

 $(2\times150+2\times75+4\times50)\div8=81.25 \text{ p/m}$

Since 81.25 ppm is less than 100 p.p.m., the 8-hour time weighted average limit, the exposure is acceptable.

- (3) Methods of compliance:
- (a) To achieve compliance with these standards, the employer shall determine and implement feasible administrative or engineering controls.
- (b) When administrative or engineering controls are not feasible to achieve full compliance, they shall nonetheless be used to reduce exposures to the lowest levels achievable by these controls.

- (c) Any control equipment or technical measure utilized for the purpose of complying with WAC 296-62-07501(3) must be approved for each particular use by a competent industrial hygienist or other technically qualified person. Whenever respirators are used their use shall comply with WAC 296-62-071 through 296-62-07121.
- (d) Upon request, the employer shall prepare and submit a written compliance plan to the director. This plan must include a description of the manner in which compliance will be achieved with respect to cited violations of WAC 296-62-07501(3), and shall include proposed abatement methods, anticipated completion dates, and provision for progress reports to be sent to the department.
- (4) An employee's exposure to any substance in Table((s)) 1 ((and 3)) or 2 (see WAC 296-62-07515)((; the name of which is not preceded by a "C,")) which does not have a ceiling or a specified short-term exposure limit (STEL) shall not exceed the ((excursion level limit)) generic STEL which is computed by multiplying the ((appropriate factor below times)) applicable eight-hour time-weighted average (TWA) for the substance ((in the applicable table)) by the appropriate multiplier listed below.

Eight-hour TWA		Multiplier
PEL > 0-1 PEL > 1-10 PEL > 10-100 PEL > 100-1000	(ppm or mg/M ₃)((, Excursion Fa (ppm or mg/M ₃)((, Excursion Fa	$\frac{\text{ctor} =)) \overline{x} 2}{\text{ctor} =)) \overline{x} 1.5}$

- (5) Permissible limits are based on the best available information from industrial experience, from experimental human and animal studies, and, when possible, from a combination of the three. The basis on which the values are established may differ from substance to substance; protection against impairment of health may be a guiding factor for some, whereas reasonable freedom from irritation, narcosis, nuisance or other forms of stress may form the basis for others.
- (6) The limits based on physical irritation shall be considered no less binding than those based on physical impairment. There is increasing evidence that physical irritation may initiate, promote or accelerate physical impairment through interaction with other chemical or biologic agents.
- (7) In spite of the fact that serious injury is not believed likely as a result of exposure to the permissible limit concentrations, the best practice is to maintain concentrations of all atmospheric contaminants as low as is practical.
- (8) These limits are intended for use in the practice of industrial hygiene and should be interpreted and applied only by a technically qualified person.

AMENDATORY SECTION (Amending Order 80-14, filed 8/8/80)

WAC 296-62-07503 CEILING VS. TIME-WEIGHTED AVERAGE LIMITS. (1) Although the time-weighted average concentration provides the most

satisfactory, practical way of monitoring airborne agents for compliance with the limits, there are certain substances for which it is inappropriate. In the latter group are substances which are predominantly fast acting and whose permissible limit is based on this particular response. Substances with this type of response are controlled by a ceiling $(({}^{n}C^{n}))$ limit that shall not be exceeded during any part of the work day. It is implicit in these definitions that the manner of sampling to determine compliance with the limits for each group must differ; a single brief sample, that is applicable to a $((\frac{\mathbb{R}^n}{\mathbb{C}^n}))$ ceiling limit, is not appropriate to the timeweighted limit; here, a sufficient number of samples are needed to determine a time-weighted average concentration throughout a complete cycle of operations or throughout the work shift.

(2) Whereas the ceiling limit places a definite boundary which concentrations shall not be permitted to exceed, the time-weighted average limit requires an explicit limit to the excursions that are permissible above the listed values. The magnitude of these excursions are limited by an appropriate factor shown in WAC 296-62-07501(4).

AMENDATORY SECTION (Amending Order 80-14, filed 8/8/80)

WAC 296-62-07505 "SKIN" NOTATION. Listed substances ((followed by the designation "skin")) marked with an "X" in the "skin" column of Table 1 refer to the potential contribution to the overall exposure by the cutaneous route including mucous membranes and eye, either by airborne, or more particularly, by direct contact with the substance. Vehicles can alter skin absorption. Measures for the prevention of cutaneous absorption so that the permissible limit is not invalidated shall be taken. Such measures may include the use of gloves, coveralls, goggles, or other appropriate personal protective equipment, engineering controls or other work practices.

AMENDATORY SECTION (Amending Order 80-14, filed 8/8/80)

WAC 296-62-07507 MIXTURES. Special consideration shall be given to assessing the health hazards associated with exposure to mixtures of two or more substances which have similar health effects.

(1) In case of a mixture of air-contaminants compute the equivalent exposure as follows:

$$E_m = \frac{C_1}{L_1} + \frac{C_2}{L_2} + \ldots + \frac{C_n}{L_n}$$

Where:

 E_m is the equivalent exposure for the mixture.

C is the concentration of a particular contaminant. L is the exposure limit for that contaminant, from Table 1((5)) or 2((5 or 3)).

The value of E_m shall not exceed unity (1).

(2) To illustrate the formula consider the following exposures:

Substance	Actual concentration of 8 hour exposure (ppm)	8 hr. TWA PEL (ppm) 8
<u>B.</u>	500	1000
<u>C</u>	45	200
D	40	200

Substituting in the formula, we have: $E_{\rm m} = 500 \div 1,000 + 45 \div 200 + 40 \div 200$ $E_{\rm m} = 0.500 + 0.225 + 0.200$

 $E_{\rm m} = 0.925$

Since E_{mis} less than unity (1), the exposure combination is within acceptable limits.

AMENDATORY SECTION (Amending Order 80-14, filed 8/8/80)

WAC 296-62-07510 TOTAL PARTICULATE. Total particulate exposure shall not exceed a permissible limit of 10 milligrams per cubic meter (mg/M³) of air for total dust or 5 milligrams per cubic meter (mg/M³) for respirable dust. The use of this eight-hour timeweighted-average exposure limit does not preclude the application of other applicable limits in WAC 296-62-075 through 296-62-07515. Nor does it preclude the use of WAC 296-62-060 when substances not specifically listed in Table 1((5)) or 2 ((and 3)) are found to require a lower limit. This section does, however, limit the combined total concentration of all particulate contaminants whether or not specifically listed in Table((5)) 1((7)) or 2 ((and 3)).

AMENDATORY SECTION (Amending Order 80-14, filed 8/8/80)

WAC 296-62-07511 SIMPLE ASPHYXIANTS. "Inert" gases or vapors. A number of gases and vapors when present in high concentrations in air act primarily as simple asphyxiants without other significant physiologic effects. A PEL may not be established for each simple asphyxiant because the limiting factor is the available oxygen. The minimal oxygen content shall be ((18)) 19.5 percent by volume under normal atmospheric pressure (equivalent to a partial pressure, p02 of ((135)) 148 mm Hg). Atmospheres deficient in 0_2 do not provide adequate warning and most simple asphyxiants are odorless. Several simple asphyxiants present an explosion hazard. Account shall be taken of this factor in limiting the concentration of the asphyxiant.

AMENDATORY SECTION (Amending Order 88-11, filed 7/6/88)

WAC 296-62-07515 CONTROL OF CHEMI-CAL AGENTS. Chemical agents shall be controlled in such a manner that the workers exposure shall not exceed the applicable limits in WAC 296-62-075 through 296-62-07515.

- Parts of vapor or gas per million parts of contaminated air by volume at 25°C and 760 mm. Hg. pressure (torr.). Approximate milligrams of subtance per cubic meter of air. Duration is for 15 minutes, unless otherwise noted. The final benzene standard in MAC 296-62-07523 applies to all occupational exposures to benzene except some subsegments of industry where exposures are consistently under the action level (i.e., distribution and sale of fuels, sealed containers and pipelines, coke production, oil and gas drilling and production, natural gas processing, and the percentage exclusion for liquid mixtures). This 8-hour TWA applies to respirable dust as measured by a vertical elutriator cotton dust sampler or equivalent instrument. The time-weighted average applies to the cotton waste processing operations of waste recycling (sorting, blending, cleaning, and willowing) and garretting. See also MAC 296-62-14533 for cotton dust limits applicable to other sectors. As determined from breathing-zone air samples. Total dust formula for Silica (as quartz) is: 30 mg/m³ <u>d</u>/

- Total dust formula for Silica (as quartz) is: $\frac{30 \text{ mg/m}^3}{7 \text{ Sil}_2 + 3}$ Both concentration and percent quartz for the application of this limit are to be determined from the fraction passing a size-selector with the following characteristics: <u>h</u>/

The measurements under this note refer to the use of an AEC (now NRC) instrument. The respirable fraction of coal dust is determined with an MRE the figure corresponding to that of 2.4 mg/m³ in the table for coal dust is 4.5 mg/m³.

Note: a A short term permissible exposure limit is defined as a 15-minute time-weighted average exposure which shall not be exceeded at any time during a work day even if the 8-hour time-weighted average is within the permissible exposure limit. Exposures at the short term limit shall not be longer than 15 minutes and shall not be repeated more than four times per day. There shall be at least 60 minutes between successive exposures at the short term limit.

b This standard applies to the industry segments exempt from WAC 296-62-07523 and also applies to any industry for which WAC 296-62-07523 is stayed or otherwise not in effect.

e This standard applies to any industry for which WAC 296-62-07540 through 296-62-07550 is stayed or otherwise not in effect.

TRANSITIONAL LIMITS

The transitional limits listed are in effect until December 31, 1992. These limits require the use of engineering controls, where feasible, the additional protection to achieve the more protective limits listed in Table 1 may be achieved using protective control measures as set forth in WAC 296-62-07501(3).

WSR 89-15-003 NOTICE OF PUBLIC MEETINGS OIL AND GAS CONSERVATION COMMITTEE

[Memorandum—July 6, 1989]

Owing to a lack of important agenda items, the regularly scheduled meeting for July 1989 is cancelled.

No proposed items have been addressed directly to staff nor have I received communications requiring committee action since the last meeting. I have discussed these activities with Ray Lasmanis and Bill Lingley and do not feel that there is sufficient material to warrant holding the July meeting.

If you are aware of urgent business that the committee should address this month, please telephone Donald M. Ford at (206) 491-1183, immediately.

We will plan on having the next meeting on Tuesday, October 17, 1989, in Ellensburg, pending Jim Brooks' approval and appropriate cooperation.

WSR 89-15-004 EMERGENCY RULES DEPARTMENT OF NATURAL RESOURCES

[Order 564—Filed July 7, 1989, 10:20 a.m.]

Date of Adoption: July 7, 1989.

Purpose: Establish regions of extra fire hazard which are closed to entry due to the condition of the forest slash.

Statutory Authority for Adoption: RCW 76.04.305.

Pursuant to RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: Certain areas of the state are particularly exposed to fire danger due to the continuous acres of slash. In order to prevent a fire from starting whereby lives and property would be at risk it is necessary to post these lands as closed to entry.

Effective Date of Rule: Midnight, Sunday, July 9, 1989.

July 7, 1989 Brian J. Boyle Commissioner of Public Lands

Date of Adoption: July 7, 1989.

Purpose: State-initiated changes to comply with 1989 Washington State SSB 5681 which amends chapter 49-.26 RCW relating to asbestos projects, to correct terminology, and to make new legislative requirements available available in WAC standards for enforcement. Statutory Authority for Adoption: Chapter 49.17 RCW.

Pursuant to RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

WSR 89-15-009 EMERGENCY RULES DEPARTMENT OF FISHERIES

[Filed July 7, 1989, 4:36 p.m.]

Date of Adoption: July 7, 1989. Purpose: Amend personal use rules.

Citation of Existing Rules Affected by this Order: Amending WAC 220-57-315; and suspending WAC 220-57-31500Q.

Statutory Authority for Adoption: RCW 75.08.080.

Pursuant to RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: The hatchery escapement for Klickitat stock spring chinook has been achieved and protective measures are unnecessary. There are available fish for harvest.

Effective Date of Rule: Immediately.

July 7, 1989 J. McKillip for Joseph R. Blum Director

WSR 89-15-010 PROPOSED RULES DEPARTMENT OF FISHERIES

[Filed July 7, 1989, 4:49 p.m.]

Notice is hereby given in accordance with the provisions of RCW 34.04.025, that the Washington State Department of Fisheries intends to adopt, amend, or repeal rules concerning personal use rules.

Notice of variance from published proposal: This proposal contains substantial changes from the proposal filed in WSR 89-10-060. Originally the department proposed that all food fish and shellfish require Canadian customs clearance. Under this proposal only salmon taken from areas other than those specified need customs clearance, while salmon taken from British Columbia

statistical areas contiguous with Washington waters in the Strait of Juan de Fuca, the San Juan Islands, and Puget Sound north of the San Juan Islands must conform to the landing restrictions in place for the Washington point of landing. Food fish other than salmon and shellfish require only a Canadian license valid for the date of capture for landing in Washington ports;

that the agency will at 7:00 p.m., Wednesday, July 26, 1989, in the Little Theater, Peninsula Community College, Port Angeles, Washington, and at 7:00 p.m., Thursday, July 27, 1989, Room F101, Skagit Valley Community College, Mt. Vernon, Washington, conduct public hearings on the proposed rules.

The formal decision regarding adoption, amendment, or repeal of the rules will take place on August 2, 1989.

The authority under which these rules are proposed is RCW 75.08.080.

The specific statute these rules are intended to implement is RCW 75.08.080.

Interested persons may submit data, views, or arguments to this agency in writing to be received by this agency before July 26, 1989.

This notice is connected to and continues the matter in Notice Nos. WSR 89-10-060 and 89-11-080 filed with the code reviser's office on May 2, 1989, and May 23, 1989.

AMENDATORY SECTION (Amending Order 88-58, filed 4/6/88)

WAC 173-160-215 DESIGN AND CONSTRUCTION—WELL COMPLETION—GENERAL. The well may be completed with screens, perforated liners or pipe, or open bottom; these shall be of sufficient strength to withstand the forces to which they are subjected during and after construction. It is the well drillers or designers responsibility to advise the owner or his representative of the most appropriate method of completion. Wells shall be completed in a manner which prevents the production of inordinate amounts of sand or turbid water.

- (1) Standard open bottom completion. Open bottom completion is appropriate only where the withdrawn waters are essentially free of sand, silt and turbidity.
- (2) Perforated pipe completion. Perforated pipe completion is suitable only for a coarse-grained, permeable aquifer where the withdrawn waters are free of excessive sand, silt or turbidity.

Perforations above the static water level are not permitted. Wells may be completed with perforations as follows:

- (a) In-place perforations with Star, Mills knife, or similar type perforators.
- (b) Perforated pipe liners, either sawcut, torch-cut, mill-slotted, or punched. Such liners may be of steel,

plastic or other suitable corrosion-resistant material, but if other than steel, a full evaluation of the structural stability of the liner must be made prior to its placement. They may be used in a natural development or gravel-packed type construction. The use of perforated casing for working casing as the hole is being drilled is prohibited, except in those cases where the contractor can, through personal experience in the particular area of drilling, attest to the sufficiency of the preperforated casing in all respects for the specific well being constructed.

- (3) Well screens. Well screens (and well points) shall be constructed of one type of corrosion-resistant material. A neoprene, ((or lead packer)) or grout seal shall be fitted to the top of the well screen assembly. The bottom of the well screen shall be plugged or capped.
- (4) Alignment. WSR 89-15-020 EMERGENCY RULES DEPARTMENT OF FISHERIES

[Filed July 12, 1989, 2:52 p.m.]

Date of Adoption: July 11, 1989. Purpose: Amend personal use rules.

Citation of Existing Rules Affected by this Order: Amending WAC 220-56-240.

Statutory Authority for Adoption: RCW 75.08.080.

Pursuant to RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: Columbia River sturgeon are in need of protection. These fish inhabit the tributaries of the Columbia River and the size restriction needs to be extended to these areas. There is inadequate time to promulgate permanent regulations.

Effective Date of Rule: Immediately.

WSR 89-15-021 EMERGENCY RULES DEPARTMENT OF FISHERIES

[Filed July 12, 1989, 2:56 p.m.]

Date of Adoption: July 12, 1989.

Purpose: Amend commercial fishing regulations.

Citation of Existing Rules Affected by this Order: Repealing WAC 220-44-05000V; and amending WAC 220-44-050.

Statutory Authority for Adoption: RCW 75.08.080.

Pursuant to RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: The harvestable quota of widow rockfish and sablefish is being taken at a higher than expected rate. In order to insure the economic well-being of the coastal fishery, it is necessary to slow the harvest rate. The Pacific Fishery Management Council has projected that 4381 mt tons of the 4581 mt nontrawl gear sablefish quota will have been landed by July 16, 1989. The remaining 200 mt is needed to allow for small unavoidable catches of sablefish later in the year. There is inadequate time to promulgate permanent regulations.

Effective Date of Rule: Immediately.

Biweekly periodicity will restart after a landing that occurs more than four calendar weeks after the immediate prior landing. A calendar week is defined as Wednesday through the following Tuesday.

- (7) It is unlawful during unloading of the catch and prior to its being weighed or leaving the unloading facility to intermix with any other species a species or category of bottomfish having a vessel trip limit.

WAC 478-116-430 JURISDICTION OF THE UNIVERSITY PARKING COURT. (1) The university

 - (b) The traffic code of the city of Seattle;
- (c) These regulations insofar as applicable to moving traffic violations of vehicles other than bicycles.
- (2) Offenses under ((WAC 478-116-430)) subsection (1)(a) through (c) of this section will be referred to Seattle district court for prosecution under applicable laws.

AMENDATORY SECTION (Amending Order 75-2, filed 6/4/75)

WAC 478-116-440 PROCEDURE—SUMMONS AND SERVICE THEREOF. Upon probable cause to believe that a violation of these regulations has occurred, an appropriate summons or parking/traffic violation notice may be issued by the university police department setting forth the date, the approximate time, the locality, and the nature of the violation. Such summons may be served by delivering or mailing a copy thereof to the alleged violator, by attaching or affixing a copy thereof to the vehicle or bicycle allegedly involved in such violation, or by placing a copy thereof in some prominent place within such vehicle. Service by mail shall be accomplished by placing a copy of the summons in the mail addressed to the alleged violator at the address shown on the records of the office of the registrar, the staff personnel office or academic personnel records, or the department of licensing in Olympia, Washington for that person or any other last known address of that person. Placing a copy of the summons in the mail with proper postage is prima facie evidence that the summons was served.

AMENDATORY SECTION (Amending Order 75-2, filed 6/4/75)

WAC 478-116-470 PROCEDURE—PLEAS AT HEARING. (1) At the date set for the hearing, the alleged violator shall appear and plead either "guilty" or "not guilty." Upon a plea of "guilty," the parking judge shall hear such relevant evidence as the alleged violator may present concerning the amount of the fine or penalty which should be imposed. Upon a plea of "not guilty" an alleged violator may present all relevant legal defenses available to him or her.

(2) The parking judge shall determine whether or not the alleged violation was committed. If the parking judge determines that the alleged violation was not committed, the charge shall be dismissed. If the parking judge determines that the alleged violation was committed, a judgment shall be pronounced from one of the court actions—warning, suspension, reduction, imposed.

AMENDATORY SECTION (Amending Order 75-2, filed 6/4/75)

WAC 478-116-490 PROCEDURE—RULES OF EVIDENCE. (1) The technical rules of evidence applicable in courts of law shall not apply, and the proceedings of the court shall be informal. Any oral or documentary evidence may be received, but the parking judge may exclude such evidence as is irrelevant, immaterial, or unduly repetitious.

(2) The alleged violator may be represented by a lawyer.

AMENDATORY SECTION (Amending Order 75-2, filed 6/4/75)

WAC 478-116-500 PROCEDURE—EXAMINATION OF WITNESSES. (1) The alleged violator or his or her representative shall be afforded an opportunity to cross—examine the witnesses against him or her. The representative of the university police department present at the hearing shall be afforded an opportunity to cross—examine the witnesses for the alleged violator. The parking judge may also, in the interest of justice, examine the witnesses for either side, or call and examine witnesses on his or her own motion.

- (2) The university parking court does not have the power to subpoena nor compel the attendance of any witnesses.
- (3) If an alleged violator wishes the individual who issued the summons or notice of parking violation(s) to be present in court for the purpose of cross-examination, such request must be made at the time the hearing is scheduled, or at least one week prior to the hearing. Failure to timely make such a request waives the alleged violator's right to cross-examine the specific witness. However, the parking judge may continue the matter in order to produce such a witness.
- (4) A witness may not testify to a matter unless he or she has personal knowledge of the matter.

AMENDATORY SECTION (Amending Order 75-2, filed 6/4/75)

WAC 478-116-510 PROCEDURE—JUDG-MENT. (1) Upon conclusion of the hearing, the parking judge shall specify the charge or charges, pronounce judgment of acquittal or conviction as to each charge, and shall assess fines or penalties not in excess of the schedule of fines and penalties established pursuant to the procedures set forth in WAC 478-116-520.

- (2) The parking court judge shall endorse his or her signature upon the court docket, certifying the record to be correct.
- (3) The judgment and sentence imposed, if any, shall be recorded in the records maintained by the parking violations division ((and the parking judge shall endorse his or her signature thereon, certifying the record to be correct)) for a period not less than one year.

AMENDATORY SECTION (Amending Order 87-1, filed 7/28/87, effective 9/1/87)

WAC 478-116-520 FINES AND PENALTIES. (1) The fines or penalties which may be assessed for violations of these regulations are those detailed in WAC 478-116-601.

- (2) Fines.
- (a) Persons cited for violation of these regulations may respond either by arranging for a university parking court date or by paying and forfeiting a fine within fifteen calendar days of service of the citation in accordance with WAC 478-116-450. Forfeitures submitted by mail must be postmarked within fifteen calendar days of the date of issue of the citation in order to avoid additional penalties.
- (b) An additional fine of \$7.00 per offense shall be assessed for each parking citation which is not responded to within the fifteen calendar day limit provided in WAC 478-116-520 (2)(a).
- (c) The manager of the parking division shall cause these regulations or a reasonable summary thereof to be:
- (i) Published in the University of Washington Daily at least twice each calendar year.
- (ii) Prominently displayed in the offices of the university parking violations division, the university police department, and the parking division.
- (d) The fine schedule shall be printed on the parking violation notices served on alleged violators.
- (((3) In any case where an alleged violator within a period of three months or less has a combined total of five or more violations with respect to which he/she has either forfeited the fine or been convicted of the violation, the parking judge may, in addition to whatever fines are appropriate under the applicable fine schedule, impose the following sanctions:
- (a) Suspension of permit parking privileges on campus for a specified time;
- (b) Direct a report of the offense to be forwarded to the appropriate dean or administrative officer.))

AMENDATORY SECTION (Amending Order 75-2, filed 6/4/75)

WAC 478-116-550 REGISTERED OWNER RE-SPONSIBLE FOR ILLEGAL PARKING. ((Every person in whose name a vehicle is registered (licensed) shall be responsible for any parking of said vehicle and for all offenses other than moving violations under these regulations:

It shall be no defense that said vehicle was illegally parked or used by another, unless it be shown that at such time said vehicle was being used without the consent of the registered (licensed) owner thereof: PRO-VIDED, That the lessee of a commercially rented or leased vehicle alone shall be responsible for any parking of such vehicle and for all violations of these regulations committed while the vehicle is being leased or rented, if the registered (licensed) owner of such vehicle furnished the parking violations division with a copy of the renting or leasing contract stating the name and address of the renter or lessee.)) In any traffic infraction or case involving a violation of this title relating to the stopping,

standing or parking of a vehicle, proof that the particular vehicle described in the notice of traffic infraction was stopping, standing, or parking in violation of any such provision of this title together with proof of registered ownership of the vehicle at the time of the violation, shall constitute in evidence a prima facie presumption that the registered owner of the vehicle was the person who parked or placed the vehicle at the point where, and for the time during which, the violation occurred.

AMENDATORY SECTION (Amending Order 85-37, filed 12/11/85)

WAC 296-30-010 DEFINITIONS. Whenever used in these rules, the following words mean:

- (1) "Innocent victim" means any person whose injury was not the direct, proximate result of his or her consenting to, provoking, or inciting the criminal act that resulted in the injury.
- (2) "Bodily injury" means any harmful or offensive touching, and includes severe emotional distress where no touching takes place when:
 - (a) Claimant is not the object of the criminal act and:
 - (i) The distress is intentionally or recklessly inflicted;
- (ii) The distress is inflicted by extreme or outrageous conduct;
- (iii) The claimant has a reasonable apprehension of imminent bodily harm;
- (iv) The claimant is in the immediate vicinity of the criminal act at the time the criminal act takes place.
 - (b) Claimant is the victim of the criminal act and:
 - (i) The distress is intentionally inflicted;
- (ii) The distress is inflicted by outrageous or extreme conduct; and
- (iii) The claimant had a reasonable apprehension of imminent bodily harm.
- (3) "Private insurance" means sources of recompense available by contract, such as life or disability insurance.
- (4) "Public insurance" means any state or federal statutory welfare and insurance plan that compensates victims or their beneficiaries as a result of the claimed injury or death. This does not include state, federal, or private deferred income retirement plans.
- (5) The test used to define "the result of" as used in RCW 7.68.070 (3)(a) and (b) is two pronged. First, it must be determined that cause in fact exists, and second, it must then be determined that proximate cause exists.
- (a) Cause in fact exists if "but for" the acts of the victim the crime that produced the injury would not have occurred.
- (b) Proximate cause exists if, once cause in fact is found, it is determined that the acts of the victim:
 - (i) Resulted in a foreseeable injury to the victim;
 - (ii) Played a substantial role in the injury, and

- (iii) Were the direct cause of the injury.
- (6) "Institutions maintained and operated by department of social and health services" means those institutions in which the department of social and health services assumes responsibility for medical coverage of the institution's residents.
- (7) "Reasonable cooperation" generally exists when the claimant is:
- (a) Willing to talk to police and give information to aid in the investigation; and
- (b) Willing to assist in the prosecution of the alleged criminal.
- (8) A person is "unjustly enriched" within the meaning of RCW 7.68.070(15) when it would be deficient in justice and fairness, or inequitable, to allow that person to obtain, or have control of or access to, benefits or compensation paid as a result of an injury to a victim of crime.
- (9) "Department" means the department of labor and industries.
- (10) "Services provided" means services covered under chapter 74.09 RCW or Title XIX of the Federal Social Security Act that are offered by the same type of provider and that are the same or equivalent to those benefits provided by the department under Title 51 or chapter 7.68 RCW.

NEW SECTION

WAC 296-30-025 MEDICAL ASSISTANCE EL-IGIBILITY. (1)(a) The benefits provided under chapter 7.68 RCW are not available to persons eligible for services provided under chapter 74.09 RCW or Title XIX of the Federal Social Security Act, except to the extent that costs for such services exceed service limits established by the department of social and health services. Applicants for benefits provided under chapter 7.68 RCW shall complete, concurrent with their application for crime victims benefits, a form to determine probable eligibility for services provided under chapter 74.09 RCW and Title XIX of the Federal Social Security Act. The application and the eligibility form shall be sent to the offices of the crime victims compensation program in Olympia. Except for claims for sexual assault examinations under the provisions of RCW 7.68.170, the department will determine no claims submitted under chapter 7.68 RCW until these requirements are met.

- (b) Persons receiving benefits provided under chapter 7.68 RCW and who do not receive services provided under chapter 74.09 RCW or Title XIX of the Federal Social Security Act shall annually complete the form used to determine eligibility for services provided under chapter 74.09 RCW and Title XIX of the Federal Social Security Act in order to continue receiving benefits under chapter 7.68 RCW.
- (2)(a) Any person who is eligible for benefits provided under chapter 7.68 RCW and who the department determines may be eligible for services provided under chapter 74.09 RCW and Title XIX of the Federal Social Security Act shall apply to the department of social and health services to determine eligibility for such services.
- (b) The department shall not provide benefits or compensation for services provided under chapter 74.09

RCW and Title XIX of the Federal Social Security Act to persons eligible for services provided under chapter 74.09 RCW and Title XIX of the Federal Social Security Act. The department also shall not provide benefits or compensation for services provided under chapter 74.09 RCW and Title XIX of the Federal Social Security Act to persons who refuse or otherwise fail to comply or cooperate with the requirements of this section, except to the extent that the costs for such services exceed service limits established by the department of social and health services.

(3) The form used to determine probable eligibility for services provided under chapter 74.09 RCW and Title XIX of the Federal Social Security Act shall be developed by the department in consultation with the department of social and health services. The form shall be provided to a claimant at the same time as the application form for crime victims benefits.

WAC 356-26-140 **BACKGROUND** INOUI-RIES—DEPARTMENT OF SOCIAL AND HEALTH SERVICES. (1) Within the department of social and health services, a background inquiry shall be completed prior to an applicant's appointment to a position which is directly responsible for the supervision, care, or treatment of children or developmentally disabled persons, vulnerable adults or mentally ill persons, except as provided in subsection (4) of this section. For purposes of this section, applicants shall also include employees who are notified they are scheduled for reduction in force who wish to consider options to positions covered by this section. The inquiry shall include an examination of the applicant's conviction records and pending criminal charges. Inquiry findings shall be used solely for the purpose of determining the character, suitability, and competence of the applicant and may result in denial of employment only for positions covered by this section.

(2) The department of social and health services shall ensure that all applicants being considered for positions covered by this section are aware of the background inquiry requirement.

- (3) Positions covered by this section are all positions which have either a direct or supervisory accountability for the supervision, care, or treatment of residents or clients who are ((cither)) children, ((or)) developmentally disabled, vulnerable adults or mentally ill persons. Positions assigned duties that provide access to residents or clients who are either children or developmentally disabled, vulnerable adults or mentally ill persons, but which are not directly accountable for their supervision, care, or treatment are not covered by this section.
- (4) A background inquiry shall be completed on the applicant prior to any permanent or nonpermanent appointment into a position covered by this section, except as waived by the secretary of the department of social and health services or designee. The inquiry shall be conducted only with the applicant's written authorization. Failure to provide written authorization shall disqualify the applicant for both appointment and referral to positions covered by this section. Employees who at the time of consideration for appointment have current probationary, trial service or permanent status in positions covered by this section are exempt from the background inquiry requirement.
- (5) A background inquiry shall be completed on applicants prior to an intermittent appointment to a position covered by this section. Individuals on intermittent appointments in positions covered by this section may not exceed twelve continuous months in such an appointment unless they are cleared following a subsequent background inquiry.

(6) Inquiry findings to be considered in determining the applicant's character, suitability and competence to perform in the position shall be limited to:

- (b) Conviction of a felony directly related to the position sought, if the date of conviction is more than ten years ago but the date of prison release is less than seven years ago. - (7) If the inquiry reveals information listed under subsection (6) of this section, no appointment decision shall be made prior to providing the applicant with an opportunity to present evidence to the appointing authority that the inquiry findings should have no bearing on the applicant's character, suitability and competence to perform in the position. In reviewing the inquiry findings, the appointing authority shall take into consideration the recentness and seriousness of the crime, the number of previous offenses, the likelihood of rehabilitation, as well as the vulnerability of the clients to be cared for in determining the applicant's character, suitability, and competence to perform in the position.
- (8) An applicant who has been notified of inquiry findings may appeal, pursuant to WAC 356-34-090, the appointing authority's decision not to appoint him or her only after having requested and completed the review provided in subsection (7) of this section.

WSR 89-15-030 EMERGENCY RULES DEPARTMENT OF PERSONNEL (Personnel Board)

[Order 323—Filed July 14, 1989, 1:44 p.m.]

Date of Adoption: July 13, 1989.

Purpose: This rule provides guidelines for the accrual and conversion of sick leave credit for employees.

Citation of Existing Rules Affected by this Order: Amending WAC 356-18-050 and 356-18-090.

Statutory Authority for Adoption: RCW 41.06.150.

Pursuant to RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: After revisions of these rules in February 1989 it has come to our attention that these changes require personnel payroll in most agencies to make manual calculations for all employees who work nonstandard work schedules. DSHS estimates that this change requires manual calculations for approximately 5,000 of their employees each pay period. This emergency adoption will cover the period until August 14, 1989, when the permanent adoption is effective.

Effective Date of Rule: Immediately.

WSR 89-15-031 EMERGENCY RULES DEPARTMENT OF PERSONNEL (Personnel Board)

[Order 324—Filed July 14, 1989, 1:47 p.m.]

Date of Adoption: July 13, 1989.

Purpose: This proposal sets special pay for change in schedule including contingency pay provisions for Department of Natural Resources and Department of Correction forest fire fighters.

Citation of Existing Rules Affected by this Order: Amending WAC 356-15-090 Schedule change and compensation.

Statutory Authority for Adoption: RCW 41.06.150.

Pursuant to RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: The special forest fire camp pay provisions for the Department of Corrections were adopted on an emergency basis so that they could be utilized during the 1989 fire season. Without the emergency passage, they could not have been used until September 1, 1989, when the fire season was largely over. Failure to enact these provisions currently could have resulted in confusion of pay practice, and instigation of a number of grievances which will now be avoided.

Effective Date of Rule: Immediately.

July 14, 1989 Robert Boysen Acting Director AMENDATORY SECTION (Amending Order 317, filed 4/28/89, effective 6/1/89)

WAC 356-15-090 SCHEDULE CHANGE AND COMPENSATION. (1) The appointing authority shall schedule the working days and hours of scheduled work period employees. This schedule shall remain in effect for at least seven calendar days, and may be changed only with seven or more calendar days notice. If seven calendar days notice is not given, a new schedule does not exist until the notice period expires. Agencies may notify employees of more than one future schedule change in a single notice.

The seven calendar days notice of changes in working days and/or hours must be given to the affected employees during their scheduled working hours. The day that notification is given shall constitute a day of notice.

- (2) If the appointing authority changes the assigned hours or days of scheduled work period employees without giving them at least seven days notice of the change, employees will be paid for all time worked outside the scheduled hours or days at the overtime rate for the duration of the notice period.
- (a) When changes in employees' assigned hours or days are made without proper notice, employees may work their scheduled hours or days unless the appointing authority deems that:
- (i) The employees are unable to perform satisfactorily as the result of excessive overtime hours; or
- (ii) The work which normally would have been performed within the scheduled hours or days cannot be performed.
- (b) The state is not obligated to pay for those scheduled hours or days not worked, unless the employee is on an authorized leave of absence with pay.
- (c) Overtime pay and shift or schedule change pay shall not be paid for the same incident.
- (3) Regardless of whether advance notice is given, an agency is not obligated to pay overtime due to a change in work schedule, when such a change is in response to a request from an employee, provided the employee works no more than forty hours in a workweek.

When the majority of employees in a work unit ask, in writing, for such a change, and the work unit can function properly only if all employees in the unit work the proposed schedule or scheduling plan, the agency is authorized to approve the change for the entire unit as an employee-initiated change. A written request for a schedule change from the exclusive representative shall constitute a request of employees within a certified bargaining unit.

- (4) When an agency initiates a scheduled change from one scheduled standard work schedule to another scheduled standard work schedule, there is created a sevenday transition period.
- (a) The transition period starts at the beginning of the shift of the previous schedule which would have begun a new five-consecutive-day work cycle.

(Example: An eight-to-five Tuesday through Saturday employee changes to a Sunday-Thursday schedule beginning on Sunday. The transition period starts at eight a.m. on the last Tuesday of the old schedule, and

- runs until eight a.m. on the first Tuesday under the new schedule.)
- (b) If, during the transition period, the employee must work more than five of the seven workdays, then the work in excess of forty non-overtime hours will be paid at overtime rates.
- (c) If, during the transition period, the schedule change causes an employee to begin work on an earlier day of the workweek or at an earlier hour of the workday than was required under the old schedule, the employee will be paid at the overtime rate for the first hours worked in the new schedule which precede the next hours which the employee would have worked under the old schedule.
- (5) Contingency scheduling is allowed for employees having the following responsibilities: Highway snow, ice, and avalanche control, grain inspection, horticulture inspection; and in the departments of natural resources or corrections, controlling forest fires, or performing work in a fire camp in support of fire crews, "hoot owl," forest fuels management and aerial applications.
- (a) Therefore: For non-forest-fire personnel in scheduled work period positions, the appointing authority shall not be bound by the above scheduled shift change notice requirement if the appointing authority notifies affected employees of the contingency schedule in writing when they enter the position or not less than 30 days prior to implementation.

When conditions mandate the activating of the contingency schedule, the appointing authority shall pay affected employees the overtime rate for all hours worked outside the original schedule at least for the employee's first shift of the contingency schedule and for other overtime hours covered by subsection (6) of this section.

(b) For forest-fire control and fire-camp support personnel in scheduled work period positions, the above schedule change notice requirement shall not apply if the appointing authority notifies affected employees in writing that they are subject to contingency scheduling when they enter the position or not less than 30 days prior to implementation.

When an employee's forest fire contingency schedule requires him or her to change working hours from the previous schedule, the appointing authority shall pay the affected employee the overtime rate for all hours worked outside the previous schedule for the employee's first shift of the new contingency schedule.

When such employees have completed the first eight hours of their assigned contingency shift (10 hours in the case of 10-40 work schedule employees), they shall receive overtime rates for all subsequent work performed until released from duty for a period of five consecutive hours.

(6) In the department of corrections, division of prisons, the agency and the employees may agree that employees sent to forest fire camps in charge of inmate fire fighters for a period of twenty four hours or more will be on "extended duty assignment". Employees on extended duty assignment will be considered to be on continuous duty from the time they commence such duty including travel time to the fire, until they are released from duty

including travel time for return to their non-fire duty station.

- (a) During the extended duty assignment, all time will be paid as work time, except that the employer may deduct up to eight hours of non-work time each day for sleep, plus up to three hours for meals, provided that:
- (i) The employee has no responsibility during time deducted for meal periods.
- (ii) The time deducted for sleep includes a period of five continuous hours which are not interrupted by a call to work.
- (iii) No sleep time shall be deducted if the employer does not furnish adequate sleeping facilities. Adequate sleeping facilities are those which are usual and customary for forest fire camps.
- (b) Scheduled work period employees shall be entitled to call back pay to the extent described in WAC 356-15-100 and 356-15-110 for a maximum of one payment, equal to three straight-time hours, at the commencement of an extended duty assignment. No callback payment shall be made for any work during the hours of an extended duty assignment, or the transition back to the regular work schedule.
- (c) The beginning of each work week on extended duty assignment shall be unchanged from the last previous work week on the employee's regular work schedule. All compensable hours of work on extended duty assignment shall be at overtime rates except eight in any work day. All compensable hours on a holiday shall be at overtime rates.
- (d) There are no scheduled days off during an extended duty assignment. However, compensable hours on a holiday, and all compensable hours in excess of forty straight time hours in any workweek (including hours worked within the same workweek either before or after the extended duty assignment), shall be paid at overtime rates.
- (e) During an extended duty assignment, all hours are duty hours; there is no eligibility for standby pay.
- (f) Employees whose regular scheduled work shift entitles them to shift premium for their full shift, or a portion thereof, shall be paid shift premium as follows:
- (i) Employees whose regular schedules are all night shifts will continue to receive night shift premium for all paid hours of the extended duty assignment.
- (ii) Employees whose regular schedules call for some, but less than four hours of, night shift work each day day will continue to receive the same number of hours at shift premium during each workday of the extended duty assignment.
- (iii) Employees whose regular schedules call for some, but not all, full night shifts each week will receive shift premium for all paid hours on those same days during the extended duty assignment.
- (((6))) (7) When a scheduled or nonscheduled work period employee experiences a schedule change (within or between agencies) which causes an overlap in workweeks and requires work in excess of forty hours in either the old or the new workweek, the employee must receive overtime compensation at least equal to the amount resulting from the following calculations:

- (a)(i) Starting at the beginning of the "old" work-week, count all hours actually worked before the end of that workweek, and calculate the straight-time pay and the overtime pay (based on "regular rate" as defined in WAC 356-05-353).
- (ii) Starting at the conclusion of the "new" workweek, count back to include all hours actually worked since the beginning of that workweek, and calculate the straight-time and overtime (based on "regular rate" as defined in WAC 356-05-353).
- (iii) Pay the larger amount calculated under (a)(i) and (ii) of this subsection.
- (b) If any other combination of straight-time and time-and-one-half-rate pay required by these rules results in an amount of pay, for either workweek, which is greater than the amount calculated in (a)(iii) of this subsection, then only the larger amount should be paid.
- (((7))) (8) If overtime is incurred as a result of employee movement between state agencies, the overtime will be borne by the receiving agency.

WSR 89-15-032 PERMANENT RULES DEPARTMENT OF FISHERIES

[Order 89-61-Filed July 14, 1989, 4:25 p.m.]

I, Joseph R. Blum, director of the Department of Fisheries, do promulgate and adopt at Olympia, Washington, the annexed rules relating to definitions.

This action is taken pursuant to Notice No. WSR 89-12-006 filed with the code reviser on May 25, 1989. These rules shall take effect thirty days after they are filed with the code reviser pursuant to RCW 34.04.040(2).

This rule is promulgated pursuant to RCW 75.08.080 and is intended to administratively implement that statute

The undersigned hereby declares that the agency has complied with the provisions of the Open Public Meetings Act (chapter 42.30 RCW), the Administrative Procedure Act (chapter 34.04 RCW) and the State Register Act (chapter 34.08 RCW) in the adoption of these rules. APPROVED AND ADOPTED July 11, 1989.

By J. McKillip for Joseph R. Blum Director

NEW SECTION

WAC 220-16-410 DEFINITION—EXTENU-ATING CIRCUMSTANCES. "Extenuating circumstances" for purposes of this chapter mean circumstances that lessen the seriousness or magnitude of an act, and which are to be considered in determining if an individual is to be granted extraordinary relief. Such personal characteristics as age, education, fishing experience, and physical capability, as well as other personal characteristics, and such physical circumstances as weather, age of vessel, and vessel propulsion mechanism,

as well as other physical circumstances, may be considered when reviewing a set of facts for extenuating circumstances.

WSR 89-15-033 EMERGENCY RULES DEPARTMENT OF FISHERIES

[Filed July 14, 1989, 4:28 p.m.]

Date of Adoption: July 14, 1989.

Purpose: Amend commercial fishing regulations.

Citation of Existing Rules Affected by this Order: Repealing WAC 220-36-02100B; and amending WAC 220-36-021.

Statutory Authority for Adoption: RCW 75.08.080.

Pursuant to RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: 7,500 chinook salmon are available for harvest in Grays Harbor through August 15, 1989, but the harvest rates on white sturgeon have been too high in past years. This change provides additional area to harvest chinook while still protecting the sturgeon. Area 2B alone did not provide enough area because of shellfish gear and dredging. There is inadequate time to promulgate permanent rules.

Effective Date of Rule: Immediately.

WSR 89-15-036 PROPOSED RULES SECRETARY OF STATE

[Filed July 17, 1989, 4:24 p.m.]

Original Notice.

Title of Rule: Use of the state seal.

Purpose: This rule provides for the consistent and efficient review and authorization of the use of the state seal

Statutory Authority for Adoption: RCW 43.04.040(4).

Statute Being Implemented: Chapter 43.04 RCW.

Summary: This rule defines which uses of the state seal may be authorized, which are prohibited, which require a licensing agreement and the procedure to be followed to obtain authorization from the Secretary of State.

Reasons Supporting Proposal: This rule is promulgated pursuant to chapter 43.04 RCW and is intended to administratively implement that statute.

Name of Agency Personnel Responsible for Drafting: Kristen Reed, Office of the Secretary of State, 2nd Floor, Legislative Building, 753–7121; Implementation: John Dziedzic, Office of the Secretary of State, 2nd Floor, Legislative Building, 753–7121; and Enforcement: Attorney General, Highways-Licenses Building, 753–6200.

Name of Proponent: Office of the Secretary of State, governmental.

Rule is not necessitated by federal law, federal or state court decision.

Explanation of Rule, its Purpose, and Anticipated Effects: This rule defines the administrative procedure to be followed to obtain authorization from the secretary to use the state seal. Use of the seal by state agencies for official purposes and by the media for illustrative purposes are permitted without approval from the secretary. Other uses must have written authorization from the secretary. In addition, commercial use of the seal shall require a licensing agreement which includes a royalty arrangement. Application fees, procedures and standards are also stated.

Proposal does not change existing rules.

No small business economic impact statement is required for this proposal by chapter 19.85 RCW.

The office of the Secretary of State has considered the effect of this proposed rule pursuant to chapter 19.85 RCW. It is the finding of the secretary that a small business economic impact statement is not required. In making this determination, the following factors were considered: The regulation provides for use of the seal in a manner which has not been permitted previously; the regulation does not impose any new restrictions or requirements upon any entity unless the entity first chooses to request to use the seal in the manner not previously permitted; the royalties imposed by the regulation are

based on units sold or manufactured, causing a proportional impact without regard to size of the business involved; and the number of businesses anticipated to request and be granted permission to use the seal, as stipulated in the regulations, is limited, in our estimation, to less than 10% of the applicable industry.

Hearing Location: Office of the Secretary of State, Legislative Building, 2nd Floor, Olympia, Washington, on August 22, 1989, at 10:00 a.m.

Submit Written Comments to: Office of the Secretary of State, Legislative Building, AS-22, Olympia, Washington 98504-9000, by August 22, 1989.

Date of Intended Adoption: September 22, 1989.

WSR 89-15-037 EMERGENCY RULES GAMBLING COMMISSION

[Filed July 17, 1989, 4:32 p.m.]

Date of Adoption: July 14, 1989.

Purpose: To readopt chapter 230-50 WAC pertaining to hearings and rule-making procedures because of implementation of chapter 343.035 [34.05] RCW.

Citation of Existing Rules Affected by this Order: Readopting of all rules contained in chapter 230-50 WAC.

Statutory Authority for Adoption: Chapter 34.05 RCW.

Pursuant to RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: Without the readoption of chapter 230-50 WAC, there are no procedural rules on adjudicative proceedings or rules making in effect, the implementation of chapter 34.05 RCW automatically resulted in the repeal of chapter 230-50 WAC. This adoption is necessary for maintaining the regulating authority of the commission until new rules can be implemented.

Effective Date of Rule: Immediately.

July 17, 1989 Frank L. Miller Deputy Director

- (e) Whether the person is currently suspended or revoked for any reason other than the offense for which the occupational driver's license is requested.
- (f) Whether the person is engaged in an occupation or trade that makes it essential that the person operate a motor vehicle. For purposes of this section, occupation or trade means being self-employed, or in the employ of another, for monetary compensation.

WSR 89-15-041 PROPOSED RULES UTILITIES AND TRANSPORTATION COMMISSION

[Filed July 18, 1989, 3:34 p.m.]

Original Notice.

Title of Rule: WAC 480-08-208 relating to methods for obtaining data in adjudicative proceedings. The proposed new section is shown below as Appendix A, Docket No. U-89-2748-R. Written and/or oral submissions may also contain data, views, and arguments concerning the effect of the proposed new section on economic values, pursuant to chapter 43.21H RCW.

Purpose: The proposed rule is designed to provide a mechanism for the production and dissemination of information in contested cases pending before the commission.

Statutory Authority for Adoption: RCW 80.01.040.

Statute Being Implemented: Titles 80 and 81 RCW.

Summary: The rule sets forth data production procedures in certain types of cases otherwise meeting the definition of an adjudicatory proceeding.

Reasons Supporting Proposal: To provide an efficient formal mechanism for parties to exchange data, consistent with time limitations that affect most major cases before the agency.

Name of Agency Personnel Responsible for Drafting, Implementation and Enforcement: Paul Curl, Acting Secretary, and commission staff, 1300 South Evergreen Park Drive S.W., Olympia, WA, (206) 753-6451.

Name of Proponent: Washington Utilities and Transportation Commission, governmental.

Agency Comments or Recommendations, if any, as to Statutory Language, Implementation, Enforcement, and Fiscal Matters: There are no comments or recommendations being submitted inasmuch as the proposal is pursuant to legislative authorization as reflected in RCW 80.01.040.

Rule is not necessitated by federal law, federal or state court decision.

Explanation of Rule, its Purpose, and Anticipated Effects: The rule establishes data production procedures applicable to certain classes of cases. The purpose of the rule is to provide efficient methods for data production in major commission cases, many of which have short statutory time limits. It is anticipated that the rule will address this purpose, while recognizing the interests of all

Proposal Changes the Following Existing Rules: For certain cases, the proposal adds procedures in place of the subpoena and deposition processes contained in WAC 480-08-120 and 480-08-130, respectively.

Small Business Economic Impact Statement: The cost of compliance with this particular rule is dependent upon the unique facts and circumstances of each case. The cost of compliance is not expected to exceed levels experienced prior to this rule, and no additional burden is cast upon small businesses. Moreover, the cost of compliance is a factor the commission can consider in determining whether data should be produced (proposed WAC 480-08-208 (5)(a)(iii)). Accordingly, the rule contemplates that the cost impact on small businesses can be minimized in the commission's discretion. It is also pertinent to note that rate case expenses are generally recognized as legitimate expenses to be recovered through rates. In many cases, a small telecommunications company will be able to recover through rates the additional costs imposed by this rule, if any.

APPENDIX "A"

NEW SECTION

WAC 480-08-208 METHODS FOR OBTAINING DATA IN ADJUDICATIVE PROCEEDINGS. (1) General. The only discovery procedure available in adjudicative proceedings before the commission is the subpoena. "Subpoena" as used in this section includes subpoena duces tecum: PROVIDED, That in the following proceeding(s) discovery will be available as provided by this section according to a schedule established by prehearing order:

(a) Any proceeding involving a change in the rate levels of a utility company or a segment of the motor carrier industry;

(b) Any proceeding of a precedential nature;

(c) Any proceeding in which a commission policy of general applicability is to be reconsidered;

(d) Any complaint proceeding involving claims of discriminatory and/or anticompetitive conduct.

Nothing in this section shall be construed as imposing any limitation whatsoever on the commission's ability to audit and/or obtain the books and records of public service companies, and the public service companies' obligation to provide information to the commission, whether or not in the context of an adjudicative proceeding. Parties in an adjudicative proceeding may agree on informal discovery procedures in addition to or in place of the procedures contained in this section.

(2) Definitions.

- (a) Party. Any party as defined by WAC 480-08-030: PROVIDED, That a person who has filed a petition to intervene shall be deemed to be a party for purposes of this section pending a ruling on the petition.
- (b) Data. As used in this section, data means information of any type in any form.
- (c) Data request. A request for data issued by a party in an adjudicative proceeding. The request may be in writing or may be made by oral motion at a conference or hearing. Generally, data requests seek extant documents, an analysis, compilation or summary of extant documents into a requested format, or a narrative explaining a policy, position or document. If a party relies on a cost study, it is expected that the party will, upon request, rerun the study based on different assumptions, subject to the standards in (5)(a)(iii) of this section. Parties will not be ordered to respond to a data request which seeks production of a new cost study unless the commission so orders, based upon a compelling need for such production.
 - (d) Depositions. Depositions are described in (5)(b) of this section.
- (3) When available. The requests for data and the deposition procedure described in this section shall be available in the context of an adjudicative proceeding when the commission, on its own motion or on motion of a party declares that the adjudicative proceeding meets one of the criteria set forth in subsection (1) of this section.
- (4) Procedure. At a prehearing conference, a data request and deposition schedule shall be established, and set forth in a prehearing order. The schedule must provide for deadlines sufficient to allow a timely opportunity for disputes to be resolved by an administrative law judge, and by subsequent commission order if necessary. Unless a different schedule is adopted, motions involving disputes arising from use of the procedures in this section will be heard by an administrative law judge on Wednesday mornings at the hour of 9:00 a.m. If commission review is required, such review will take place on the same day, if possible, as soon as the commission is available to hear argument.
- (5) Methods available. Unless otherwise specified in the prehearing order, the following procedures will apply:
 - (a) Data requests.
- (i) To whom sent. Written data requests shall be sent to the party of whom the request is made, with copies to all other parties. Neither the commissioners nor the secretary of the commission should receive copies of such requests, except upon the filing of a motion to compel or an objection to the request. Data requests may also be made on the record, at hearing or conference. Each party shall number its data requests sequentially as submitted.
- (ii) Receipt of responses. Responses to data requests shall be sent to the requesting party and to any other party who shall have requested a copy, so long as such responses are consistent with the terms of any protective order which may be entered in the proceeding.

The party responding to the request for data shall provide the data requested to the requesting party within ten days of receipt of the request. In the event the data cannot be supplied within ten days, the responding party shall notify the requesting party, in writing and within five days of receipt of the request, of the reasons why the ten-day limit cannot be met. In this event, the responding party shall also provide a schedule for producing the requested data or shall explain why portions of the data will not be supplied. Weekends and holidays will be excluded in calculating these time limits. time limits may be modified by prehearing order to the extent necessary to conform to the commission's hearing schedule.

No response to a request for data shall be considered or treated as evidence until it is entered into the record.

(iii) Scope of request. The scope of any request for data shall be for data relevant to the issues identified in the notices of hearing or orders in the adjudicative proceeding. It is not grounds for objection that the information sought will be inadmissible at the hearing, if the information sought appears reasonably calculated to lead to discovery of admissible evidence. The frequency, extent, or scope of discovery shall be limited by the commission if it determines that the discovery sought is unreasonably cumulative or duplicative, or is obtainable from some other source that is more convenient, less burdensome, or less expensive; the party seeking discovery has had ample opportunity to obtain the information sought; or, the discovery is unduly burdensome or expensive, taking into account the needs of the adjudicative proceeding, limitations on the parties' resources, scope of the responding party's

interest in the proceeding, and the importance of the issues at stake in the adjudicative proceeding.

- (b) Depositions. Depositions will be available during one or more conferences scheduled in the prehearing order. A party who intends to depose a witness will give at least five days notice to the commission and all parties prior to the scheduled conference. The conference will be convened by an administrative law judge who will, thereafter, withdraw from further participation in the deposition unless requested by the parties to remain. Should all parties request the administrative law judge to participate in the deposition portion of the conference, or should no party object prior to such participation, the parties will be deemed to have waived the right to argue that the deposition constitutes a "hearing" within the meaning of RCW 34.12.060. Only witnesses who have been identified by a party as a prospective witness will be subject to deposition: PROVIDED, That an individual compelled to appear as an adverse witness will not be deemed to be a "prospective witness" for purposes of this subsection.
- (i) Depositions—how conducted. Depositions will be conducted by the parties, using Rule 30 of the Civil Rules of Procedure as a guide. At the request of a party, the deposition may be interrupted for purposes of presenting to an administrative law judge or the commission a dispute regarding the deposition process. However, to avoid interruption, such disputes should, if possible, be reserved to the conclusion of the deposition. The scope of questioning will be the same standard set forth in (5)(a)(iii) of this section. The deposition will be recorded by a court reporter provided by the commission. Each party will be responsible for arranging for the attendance of those of its prospective witnesses who have been asked to be deposed.
- (ii) Use of depositions. Except as provided in this subsection, depositions may be used for any purposes. If a witness is available, and a party seeks to offer that witness' deposition into evidence, that party must do the following:
- (A) Offer only those portions of the deposition upon which it intends to rely; and
- (B) Provide five working days' written notice (prior to the hearing at which the witness will appear) to other parties of its intent to offer the specified portions of the deposition into evidence.

Time limits may be modified by prehearing order to the extent necessary to conform to the commission's hearing schedule. The portions of the deposition moved into evidence shall be admitted as testimony if the testimony is otherwise admissible, and if admitting the testimony would substantially reduce repetitive questioning.

(6) Procedure for resolving disputes. If a responding party refuses to produce the data requested or refuses to comply with a request for deposition, or if a witness fails to respond to a question at deposition, and the parties have failed in good faith efforts to resolve the dispute, the matter may be brought upon motion filed with the secretary of the commission and presented to an administrative law judge for resolution.

Motions shall be timely filed. Responses to the motion shall be filed within five working days of the receipt of the motion, and shall be served on all parties. Time limits may be imposed or modified by prehearing order to the extent necessary to conform to the commission's hearing schedule.

Argument on motions under this section will typically be heard at the commission's offices in Olympia, on Wednesdays, beginning at 9:00 a.m. The administrative law judge will notify the parties to the motion of the specific time and place of the argument. The notification may be by telephone or by letter. Oral arguments will be transcribed or tape recorded. The administrative law judge will rule on the motion.

If the ruling of the administrative law judge is unsatisfactory to a party, the administrative law judge, upon oral request at the time the motion is heard, shall refer the matter to the commission for resolution. Oral arguments will be transcribed or tape recorded. If possible, the commission will hear the matter on the same day as soon as the commission is available to hear argument. If this is not possible, the commission will advise the parties, by telephone or by letter, of the time and place of the argument.

If a party fails or refuses to comply with a commission order resolving a dispute under this section, the commission may impose sanctions including but not limited to dismissal, striking of testimony, evidence, or cross-examination, or penalties as provided by law.

WAC 480-107-001 PURPOSE AND SCOPE. (1) The purpose of this chapter is to establish rules for determining rates, terms, and conditions governing the following purchases by electric utilities: Electricity from qualifying facilities; the electrical savings associated with eligible conservation measures pursuant to these rules; electricity from independent power producers; and, at the utility's election, utility subsidiaries, and other electric utilities. These rules are intended to provide an opportunity for conservation and generating resources to compete on a fair and reasonable basis to fulfill a utility's new resource needs. It is the commission's intent that bids under these rules shall include the costs of compliance by the project with environmental laws, rules, and regulations in effect at the time of the bid and those reasonably anticipated to be in effect during the term of the project.

These rules are consistent with the provisions of the Public Utility Regulatory Policies Act of 1978 (PURPA), Title II, sections 201 and 210, and regulations promulgated by the Federal Energy Regulatory Commission (FERC) in 18 C.F.R. Part 292. Purchase of electric power under these rules shall satisfy an electric utility's obligation to purchase power from qualifying facilities under section 210 of PURPA.

These rules do not preclude electric utilities from constructing electric resources, operating conservation programs, purchasing power through negotiated purchase contracts, or otherwise taking action to satisfy their public service obligations. Information about the price and availability of electric power obtained through the bidding procedures described in these rules may be used, in conjunction with other evidence, in general rate cases and other cost recovery proceedings pertaining to resources not acquired through these bidding procedures.

(2) The provisions of this chapter shall apply to any electric utility which has submitted to the commission a least-cost plan as provided in WAC 480-100-251.

NEW SECTION

NEW SECTION

WAC 480-107-010 FILING REQUIREMENTS FOR PROTOTYPE CONTRACTS. (1) The electric utility shall file its initial prototype contracts with the commission. Long-run prototype contract A and long-run prototype contract C shall be attached to the RFP.

Prototype contracts may be structured to allow for project-specific contract language where appropriate. The following prototype contracts shall establish terms, conditions, and rules for such transactions, and must be consistent with these rules.

- (2) Short-run prototype contract. The electric utility shall file with the commission a contract which offers to qualifying facilities a short-run price equivalent to one hundred percent of the avoided energy-only production costs calculated pursuant to WAC 480-107-050. Such contract shall be called the qualifying facility short-run prototype contract.
- (3) Long-run prototype contracts. The electric utility shall file with the commission three contracts which will be used pursuant to the requirements set forth in this chapter.
- (a) The first contract shall be used in contracting with qualifying facilities, or other generating facilities if applicable, from winning bidders as determined through the solicitation and bidding process described in this chapter. Such contract shall be called the long-run prototype contract A.
- (b) The second contract shall be used in contracting with qualifying facilities of design capacity of one megawatt or less. Such contract shall be called the long-run prototype contract B.
- (c) The third contract shall be used in contracting with conservation suppliers as determined through the solicitation and bidding process. Such contract shall be called the long-run prototype contract C.
- (4) The commission shall review all short-run and long-run prototype contracts filed by electric utilities pursuant to this section. Any modification to such prototype contracts proposed by the electric utility in between RFP submittals shall be filed with the commission.

NEW SECTION

WAC 480-107-020 ELIGIBILITY FOR LONG-RUN GENERATING FACILITY PURCHASE RATES. (1) Any developer of a potential generating facility may participate in the bidding process. Qualifying facility developers proposing projects with a design capacity of one megawatt or less may choose to receive long-run prototype contract B as defined in WAC 480-107-010 (3)(b). The purchase price for power from these projects shall be based on avoided energy and capacity costs as defined in WAC 480-107-050 adjusted to reflect the most recent purchases under these rules.

- (2) A soliciting electric utility may broaden the scope of the solicitation and bidding process to include other electric utilities, subject to the approval of the commission. Such a decision must be explained in the utility's RFP submittal.
- (3) An electric utility may allow an affiliated generating subsidiary to participate in the bidding process as a power supplier, on conditions set forth in WAC 480-107-160. Such a decision must be explained in the utility's RFP submittal.
- (4) A project developer must provide evidence that a generation site has or will be obtained (e.g., letter of intent) before signing a contract with the purchasing electric utility.

- (5) The project developer shall specify, as part of the price bid, the costs of complying with environmental laws, rules, and regulations in effect at the time of the bid and those reasonably anticipated to be in effect during the term of the project.
- (6) Any bid which involves the acquisition of energy from a hydroelectric project located in a protected area as designated by the Northwest Power Planning Council must show in its project proposal that:
- (a) Such project qualifies for exception or exemption under sections 1103 (b)(4)-(5) or section 1303(g) of the Columbia River Basin Fish and Wildlife Program, or corresponding provisions of the Northwest Conservation and Electric Power Plan; or
- (b) The project developer has obtained the necessary approvals from all entities legally responsible for the protection or management of fish or wildlife resources affected by the project, including the Federal Energy Regulatory Commission. The bid shall specify the estimated costs of such compliance.

NEW SECTION

WAC 480-107-030 ELIGIBILITY FOR LONG-RUN CONSERVATION PURCHASE RATES. (1) Any eligible conservation supplier may participate in the bidding process. An electric utility may allow an affiliated subsidiary to participate as a conservation supplier, on conditions set forth in WAC 480-107-160. Such a decision must be explained in the utility's RFP submittal.

- (2) A participating conservation supplier shall provide evidence that the proposed conservation measures can be installed and will produce anticipated savings over the term of the contract.
- (3) All conservation measures included in a project proposal must:
- (a) Produce electrical savings over a time period of greater than five years, or a longer period if specified in the electric utility's RFP. A measure with an expected life which is shorter than the contract term must include replacements through the contract term;
- (b) Be consistent with the utility's least-cost plan at the time of the bid; and
- (c) Produce savings that can be reliably measured or estimated with accepted engineering methods.

NEW SECTION

WAC 480-107-040 SIZE OF RESOURCE BLOCK. (1) The electric utility shall, as part of its RFP submittal, identify a resource block consisting of the overall amount of power to be solicited from project developers through the bidding process. The commission shall review the proposed resource block in its evaluation of the electric utility's RFP submittal.

(2) The electric utility shall, as part of its RFP documentation, demonstrate that the size of the resource block is consistent with the range of estimated new resource needs identified in the utility's least—cost plan.

WAC 480-107-050 AVOIDED COST SCHED-ULES. The electric utility shall determine the avoided costs for the energy and capacity associated with the resource block calculated pursuant to WAC 480-107-040 on an annual basis for the greater of twenty years or the longest period over which power purchase contracts entered under these rules will be effective. This price stream will be referred to as the utility's avoided cost schedule. The avoided cost schedule and its supporting documentation shall be filed with the RFP and shall be reviewed by the commission. Revisions to the avoided cost schedule may be made during the period between solicitations by filing, with the commission and subject to the commission's approval, such revised schedule. The assumptions used in calculating the avoided cost schedule shall be consistent with the utility's least-cost plan. The electric utility shall use this stream of avoided costs to provide general information to potential bidders about the cost of new power supplies absent nonutility resources. The avoided cost schedule applicable to any purchases under this chapter shall be that which is filed and approved by the commission pursuant to this section, as adjusted to reflect the most recent purchases under these rules.

NEW SECTION

WAC 480-107-060 THE SOLICITATION PROCESS. (1) The utility shall begin the solicitation process by issuing a request for proposals (RFP). The information which a bidder files in accordance with the utility's RFP will be referred to as the project proposal. Project proposals will be subject to a competitive ranking procedure to determine the group of bidders with which the utility will finalize long-run purchase contracts.

- (2) Requirements for issuing a request for proposals:
- (a) The electric utility shall solicit bids for electric power and electrical savings at least every two years. More frequent solicitations shall be allowed at the discretion of the utility. The solicitation must take the form of an RFP approved by the commission.
- (b) The electric utility shall submit a proposed RFP and accompanying documentation to the commission at least ninety days before its proposed issuance date. Interested persons shall have sixty days from the RFP's filing date with the commission to submit written comments to the commission on the proposed RFP. The commission shall take action on the proposed RFP within thirty days after the close of the comment period. The commission may suspend the RFP filing to determine whether its issuance is in the public interest.
- (c) The RFP shall specify the resource block and the long-term avoided cost schedule as calculated in WAC 480-107-040 and 480-107-050.
- (d) The RFP shall explain the evaluation and ranking procedure to be used by the utility. The RFP must also specify any minimum criteria that bidders must satisfy to be eligible for consideration in the ranking procedure.

NEW SECTION

WAC 480-107-070 PROJECT RANKING PROCEDURE. (1) The electric utility shall adopt ranking procedures to evaluate project proposals on the basis of least-cost planning goals. The project ranking procedure must use explicitly stated criteria.

- (2) The criteria used to rank project proposals are subject to commission approval and must be explained in the RFP. These factors must at a minimum address price, dispatchability, risks imposed on ratepayers, and environmental effects including those associated with resources that emit carbon dioxide.
- (3) The electric utility's ranking procedures shall recognize differences in relative amounts of risk inherent among different technologies, fuel sources, financing arrangements, and contract provisions.
- (4) Information submitted by the bidder pursuant to an approved RFP shall remain sealed until expiration of the solicitation period specified in the RFP. The utility shall make project proposal summaries and a final ranking available at its place of business for public inspection after the project proposals have been opened for the purpose of ranking. The commission shall retain the right to examine project proposals as originally submitted by potential developers.

NEW SECTION

WAC 480-107-080 PRICING AND CONTRACTING PROCEDURES. (1) On the basis of the ranked project proposals developed in accordance with WAC 480-107-060 and 480-107-070, the electric utility shall identify the bidders that best meet the selection criteria and that are expected to produce the energy, capacity, and electrical savings as defined by the resource block.

(2) The price bid and the requested pricing configuration are not subject to negotiation. If a qualifying facility or other generating facility agrees to be operated under economic dispatch, then the price bid shall be adjusted by operating performance adjustments such as the project's equivalent availability factor. The methodology for such performance adjustments must be explained in the utility's RFP submittal.

NEW SECTION

WAC 480-107-090 SECURITY CONSIDERATIONS. (1) The purpose of security requirements shall be to protect ratepayer interests. The requirements and the rationale for them shall be explained in the electric utility's RFP submittal.

(2) Security is required on all project contracts whose expected payment to the project developer at any point in time will exceed the payment which would have been made under the utility's avoided cost schedule. No minimum security is required if payments to the project developer are expected to be always less or equal to the payments which would have been made under the utility's avoided cost schedule.

WAC 480-107-100 CONTRACT FINALIZATION. (1) If, for the purposes of finalizing a particular contract, the project developer or electric utility requests changes in the long-run prototype contract, the project developer and utility may negotiate these items consistent with the provisions of this chapter. If after ninety days the parties cannot reach an agreement, either party may request a determination by the commission of the matter at issue.

- (2) The electric utility is required to sign long-run prototype contracts for any appropriate time period specified in a selected project proposal for up to a twenty-year term. Longer term contracts can be signed if such provisions are specified in the utility's RFP. A selected project bidder or the utility may petition the commission, after the selection but before the contract is signed, to relieve the party of its obligation to enter into a final contract. The commission may, for good cause shown, relieve the petitioner of its obligation to sign a contract.
- (3) If, during contract finalization, a project developer materially changes the representations it had made in its project proposal, the electric utility must suspend contract finalization with that party and rerank projects according to the new representations. If the new representations cause the project proposal to rank lower than projects not originally selected, the utility shall dismiss the project proposal from further consideration and replace it with next ranked projects.

NEW SECTION

WAC 480-107-110 OBLIGATIONS OF GENERATING FACILITIES TO ELECTRIC UTILITY. The conditions listed in this section shall apply to all generating facilities to be served by an electric utility under this chapter.

- (1) The owner or operator of a generating facility purchasing or selling electricity pursuant to these rules shall execute a written agreement with the electric utility.
- (2) In order to ensure system safety and reliability of interconnected operations, all interconnected generating facilities shall be constructed and operated in accordance with all applicable federal, state, and local laws and regulations.
- (3) The generating facility shall furnish, install, operate, and maintain in good order and repair and without cost to the electric utility such relays, locks and seals, breakers, automatic synchronizers, and other control and protective apparatus as shown by the utility to be reasonably necessary for the operation of the generating facility in parallel with the electric utility's system.
- (4) Switching equipment capable of isolating the generating facility from the electric utility's system shall be accessible to the utility at all times.
- (5) At its option, the electric utility may choose to operate the switching equipment described in subsection (4) of this section if, in the sole opinion of the utility, continued operation of the customer's generating facility

in connection with the utility's system may create or contribute to a system emergency. Such a decision by the utility is subject to commission verification pursuant to WAC 480-107-140. The utility shall endeavor to minimize any adverse effects of such operation on the customer.

(6) Any agreement between a generating facility and an electric utility shall provide for the degree to which the generating facility will assume responsibility for the safe operation of the interconnection facilities. No generating facility may be required to assume responsibility for negligent acts of the utility.

NEW SECTION

WAC 480-107-120 OBLIGATIONS OF ELECTRIC UTILITY TO QUALIFYING FACILITIES. (1) Obligation to purchase from qualifying facilities. Each electric utility's obligation to purchase from qualifying facilities shall be limited to one of the following:

- (a) Energy and capacity from projects under long-run contract A pursuant to the solicitation and bidding process described in these rules;
- (b) Energy or capacity offered under long-run prototype contract B from qualifying facilities with a design capacity of one megawatt or less; or
- (c) Energy offered under the short-run prototype contract.
- (2) Obligation to sell to qualifying facilities. Each electric utility shall sell to any qualifying facilities, in accordance with WAC 480-107-130, any energy and capacity requested by the qualifying facilities on the same basis as available to other customers of the utility in the same class.
- (3) Obligation to interconnect. Any electric utility shall make such interconnections with any qualifying facilities as may be necessary to accomplish purchases or sales under this section. The obligation to pay for any interconnection costs shall be determined in accordance with WAC 480-107-150.
- (4) Transmission to other electric utilities. At the request of a qualifying facility, an electric utility which would otherwise be obligated to purchase energy or capacity from such qualifying facility may, at the option of the utilities involved, transmit energy or capacity to any other electric utility. Nothing contained herein shall be construed to obligate the electric utility connected with the qualifying facility to transmit to other utilities or to obligate such other utilities to purchase from the qualifying facility.
- (5) Parallel operation. Each electric utility shall offer to operate in parallel with a qualifying facility: PRO-VIDED, That the qualifying facility complies with any applicable standards established in accordance with WAC 480-107-110.

NEW SECTION

WAC 480-107-130 RATES FOR SALES TO QUALIFYING FACILITIES. (1) General rules:

(a) Shall be just and reasonable and in the public interest; and

- (b) Shall not discriminate against any qualifying facilities in comparison to rates for sales to other customers served by the electric utility.
- (2) Rates for sales which are based on accurate data and consistent system—wide costing principles shall not be considered to discriminate against any qualifying facilities to the extent that such rates apply to the utility's other customers with similar load or other cost—related characteristics.
- (3) Additional services to be provided to qualifying facilities:
- (a) Upon request for a qualifying facility, each electric utility shall provide:
 - (i) Supplementary power;
 - (ii) Back-up power;
 - (iii) Maintenance power; and
 - (iv) Interruptible power.
- (b) The commission may waive any requirement of (a) of this subsection if, after notice in the area served by the electric utility and after opportunity for public comment, the electric utility demonstrates and the commission finds that compliance with such requirement will:
- (i) Impair the electric utility's ability to render adequate service to its customers; or
 - (ii) Place an undue burden on the electric utility.
- (4) The rate for sale of back-up power or maintenance power:
- (a) Shall not be based upon an assumption (unless supported by factual data) that forced outages or other reductions in electric output by all qualifying facilities on an electric utility's system will occur simultaneously, or during the system peak, or both; and
- (b) Shall take into account the extent to which scheduled outages of the qualifying facilities can be usefully coordinated with scheduled outages of the utility's facilities.

WAC 480-107-140 SYSTEM EMERGENCIES.

- (1) Generating facility obligation to provide power during system emergencies: A generating facility entering into a power contract under these rules shall be required to provide energy or capacity to an electric utility during a system emergency only to the extent:
- (a) Provided by agreement between such generating facility and electric utility; or
- (b) Ordered under section 202(c) of the Federal Power Act.
- (2) Discontinuance of purchases and sales during system emergencies:
- (a) During any system emergency, an electric utility may discontinue or curtail:
- (i) Purchases from a generating facility if such purchases would contribute to such emergency; and
- (ii) Sales to a generating facility, provided that such discontinuance or curtailment does not discriminate against a generating facility, and takes into account the degree to which purchases from the generating facility would offset the need to discontinue or curtail sales to the generating facility.

(b) System emergencies resulting in utility action under these rules are subject to verification by the commission if either party requests such verification.

NEW SECTION

WAC 480-107-150 INTERCONNECTION COSTS. (1) Obligation to pay. Any costs of interconnection shall be the responsibility of the owner or operator of the generating facility entering into a power contract under these rules. Interconnection costs which may be reasonably incurred by the electric utility shall be assessed against a generating facility on a nondiscriminatory basis with respect to other customers with similar load characteristics.

(2) Reimbursement of interconnection costs. The electric utility shall be reimbursed by the generating facility for any reasonable interconnection costs the utility may incur. Such reimbursement may be over an agreed period of time, but not greater than the length of any contract between the utility and the generating facility.

NEW SECTION

WAC 480-107-160 SPECIAL CONDITIONS FOR PURCHASE OF ELECTRICAL POWER OR SAVINGS FROM A UTILITY SUBSIDIARY. (1) With the approval of the commission, utility subsidiaries may participate in an affiliated utility's bidding process. Under such circumstances, the solicitation and bidding process will be subject to additional scrutiny by the commission to ensure that no unfair advantage is given to the bidding subsidiary.

- (2) As part of its RFP submittal, an electric utility shall notify the commission if a utility intends to allow its subsidiaries to participate in its bidding process. The electric utility must indicate in its RFP submittal how it will ensure that its subsidiary or subsidiaries will not gain, through its association with the electric utility, any unfair advantage over potential nonaffiliated competitors. Disclosure by an electric utility to its affiliated subsidiary of the contents of an RFP or competing project proposals prior to the public availability of such information, shall be construed to constitute an unfair advantage.
- (3) Upon a showing to the commission that any unfair advantage was given to a bidding utility subsidiary, rate recovery of costs associated with the subsidiary's project(s) may be denied in full or in part.

NEW SECTION

WAC 480-107-170 FILINGS—INVESTIGATIONS—EXCEPTIONS. (1) The electric utility shall file with the commission and maintain on file for inspection at its place of business the current rates, prices, and charges established pursuant to these rules.

(2) If, at any time, a project developer is aggrieved by an action of an electric utility pursuant to these rules, the aggrieved party may petition the commission to investigate such action. The commission may, at its discretion, open an investigation and, if it deems necessary, hold public hearings regarding any such petition. (3) The commission may grant such exceptions to these rules as may be appropriate in individual cases.

WSR 89-15-047 PROPOSED RULES DEPARTMENT OF ECOLOGY

[Filed July 19, 1989, 11:36 a.m.]

Original Notice.

Title of Rule: WAC 173-303-902 Citizen/proponent negotiations, amending chapter 173-303 WAC to add a

new section on citizen/proponent negotiations and citizen/proponent negotiations grants. Citizen/proponent negotiations is a dispute resolution process between local communities potentially affected by the siting and permitting of a dangerous waste management facility and the proponent of that facility.

Purpose: To set forth the procedures for citizen/proponent negotiations between affected local communities and facility proponents and the eligibility criteria for financial assistance to local communities to support the negotiations process.

Statutory Authority for Adoption: The Model Toxics Control Act.

Statute Being Implemented: RCW 70.105.260.

Summary: A dispute resolution process between the citizens potentially affected by the siting and permitting of a dangerous waste management facility and the proponent of the facility. The purpose of the negotiations is to mitigate potential impacts of the facility on the community. Financial assistance in the form of grants up to \$50,000 is available for eligible communities.

Reasons Supporting Proposal: Public confidence in dangerous waste management facilities is necessary for successful siting of these facilities. To achieve public confidence, affected communities need opportunities to resolve local concerns with the facility proponent.

Name of Agency Personnel Responsible for Drafting, Implementation and Enforcement: Laurie Davies, Lacey, Washington, 459-6322.

Name of Proponent: Department of Ecology, governmental.

Rule is not necessitated by federal law, federal or state court decision.

Explanation of Rule, its Purpose, and Anticipated Effects: This rule establishes a negotiation process between local communities potentially affected by the siting and permitting of a dangerous waste management facility and the proponent of that facility. The purpose of the negotiations is to allow citizens of the affected community to resolve concerns about the facility with the proponent. Any agreements reached through the negotiation process may be incorporated into the operational permit for that facility. Up to \$50,000 grants will be awarded to eligible local governments interested in participating in the citizen/proponent negotiations process. To be an eligible local government, all or the majority of the proposed facility must be located within the local government's jurisdiction. Grant money will be used to pay for the negotiating committee's expenses, to hire a negotiation mediator and to pay for technical assistance needed by the committee.

Proposal Changes the Following Existing Rules: Adds a new section to chapter 173-303 WAC.

No small business economic impact statement is required for this proposal by chapter 19.85 RCW.

NEW SECTION

WAC 173-303-902 CITIZEN/PROPONENT NEGOTIATIONS. (1) Intent and purpose. Successful siting of dangerous waste management facilities depends on public confidence, which requires affected communities to have opportunities to meet with owners/operators of proposed dangerous waste management facilities to resolve concerns about such facilities. RCW 70.105.260 authorizes the department to specify a procedure for conflict resolution activities for dangerous waste management facility proponents, host communities, citizens and citizen groups, and to expend funds to support such activities. The purpose of this section is to set forth a procedure for negotiations between affected communities and the proponent of a facility, and the eligibility criteria for financial assistance.

(2) Applicability.

- (a) This section applies to local governments and citizens potentially affected by the siting and permitting of a dangerous waste management facility, owners and operators of proposed facilities, and owners and operators of facilities for which interim or final status permit applications have been submitted to the department prior to the effective date of this section. This section also applies to existing facilities with interim or final status for which the department receives an application for expansion. WSR 89-15-050 PROPOSED RULES UTILITIES AND TRANSPORTATION COMMISSION

[Filed July 19, 1989, 3:31 p.m.]

Original Notice.

Title of Rule: WAC 480-120-031 relating to methods of reporting by telecommunications companies. The proposed amendatory section is shown below as Appendix A, Docket No. U-89-2864-R. Written and/or oral submissions may also contain data, views, and arguments concerning the effect of the proposed amendatory section on economic values, pursuant to chapter 43.21H RCW.

Purpose: To revise classifications and reporting requirements for telecommunications companies providing service within the state of Washington.

Statutory Authority for Adoption: RCW 80.01.040. Statute Being Implemented: RCW 80.04.080.

Summary: Changes basic classifications of telecommunication companies from a revenue base to access lines; and provides for special accounting by access revenues and periodic reporting reflecting jurisdictional separations, supported by an annual separations cost study.

Reasons Supporting Proposal: Dynamics of the telecommunications industry require reporting of results of operations based on proper allocations and jurisdictional separations.

Name of Agency Personnel Responsible for Drafting, Implementation and Enforcement: Paul Curl, Acting Secretary and commission utilities staff, 1300 South Evergreen Park Drive S.W., Olympia, WA, (206) 753-6451.

Name of Proponent: Washington Utilities and Transportation Commission, governmental.

Agency Comments or Recommendations, if any, as to Statutory Language, Implementation, Enforcement, and Fiscal Matters: There are no comments or recommendations being submitted inasmuch as the proposal is pursuant to legislative authorization as reflected in RCW 80.01.040.

Rule is not necessitated by federal law, federal or state court decision.

Explanation of Rule, its Purpose, and Anticipated Effects: This amendment changes classifications of telecommunications companies from a revenue standard to access lines. It requires periodic reporting, monthly for Class A companies, and semi-annually for those having 10,000 or fewer access lines. It requires separation of nonregulated and regulated costs, as well as jurisdictional separations, and filing annually of a cost separations study, so that jurisdictional separations may be reviewed. The purpose is to assure proper portrayal of jurisdictionally separated results of operations. The anticipated effect is to improve reliability of data necessary to respond to dynamic changes in the telecommunications industry.

Proposal Changes the Following Existing Rules: The rule changes classifications of telecommunications companies from a revenue standard to access lines. It requires periodic reporting of various jurisdictional/non-jurisdictional activities and services, monthly for Class A companies, and semi-annually for those having 10,000 or fewer access lines. It also requires filing annually of a cost separations study.

Small Business Economic Impact Statement: Under the three digit code governing telecommunications, when viewed in terms of revenues or access lines, or other operating characteristics, it is possible that a statement is not required. However, since there are individual Class B telecommunications companies that are properly categorized as small businesses, the following analysis is submitted: In extensive discussions of the proposed rule with the regulated industry, it was indicated that cost to Class B companies to comply would approximate \$500. For a company with revenues of \$1,000,000 annually, the cost per \$100 of revenue would be approximately \$0.05. Only two carriers has less than \$1,000,000 in annual revenues for the last reporting period. The Federal Communications Commission requires an annual separations cost study. Any additional cost associated with filing at the state level as well would be minimal.

Hearing Location: Commission Hearing Room, Second Floor, Chandler Plaza Building, 1300 South Evergreen Park Drive S.W., Olympia, WA, on August 23, 1989, at 9:00 a.m.

Submit Written Comments to: Paul Curl, Acting Secretary, 1300 South Evergreen Park Drive S.W., Olympia, WA, by August 18, 1989.

Date of Intended Adoption: August 23, 1989.

APPENDIX "A"

AMENDATORY SECTION (Amending Order R-278, Cause No. U-87-1144-R, filed 11/30/87)

WAC 480-120-031 ACCOUNTING. (1) Except as provided in this rule, the Uniform System of Accounts (USOA) for Class A and Class B Telephone Companies published by the Federal Communications Commission (FCC) and designated as Part 32, is hereby prescribed for book and recording purposes for telecommunications companies in the state of Washington.

(2) Telecommunications companies operating within this state shall be classed by ((revenue)) access lines as follows:

Class

((Annual Gross Operating Revenue))
Number of Access Lines

Equal to or Exceeding ((\$25,000,000))
10,000

В

Less than ((\$25,000,000))
10,000

Upon ((notice to the commission in writing filed not later than December 15, 1987 all carriers must state their intention to implement the FCC Part 32 Uniform System of Accounts as either a Class A or Class B carrier, and seek commission approval for such classification. After November 1, 1987, upon notice to the commission, and if authorized)) authorization by the commission, a company presently classified by the commission as a Class B company but desiring more detailed accounting may adopt the accounts prescribed for ((a higher classification)) Class A companies. ((Upon such notification,)) Class B companies ((in the lower classification)) authorized to adopt the accounts prescribed for Class A companies shall be required to comply with the more detailed accounting ((and reporting)) specified for ((the higher classification)) Class A companies. Any election to the contrary notwithstanding, the commission reserves the right to require any company to comply with the accounting requirements applicable to ((the higher classification)) Class A companies.

- (3) Jurisdictional differences. For Account 7910-Income effect of jurisdictional ratemaking differences-Net; Account 1500-Other jurisdictional assets-Net; Account 4370-Other jurisdictional liabilities and deferred credits-Net, and in a subaccount of Account 4550-Retained earnings, the exchange telecommunications companies operating in this state shall keep subsidiary accounts and records reflecting in separate accounts, subaccounts, and subsidiary records, the Washington intrastate differences in amounts arising from the departure of this commission for booking and/or ratemaking purposes from FCC prescribed accounting. Separate subaccounts shall be kept for each difference. Examples include, but are not limited to, separate accounting for the booking of an allowance for funds used during construction (AFUDC) for short-term construction work in progress (Account 2003, formerly subdivision (1) of Account 100.2); flow-through accounting of tax timing differences to the extent permitted by tax regulations (unless specific exceptions to the flow-through requirement have been granted or required by the commission); elimination of excess profits for affiliated transactions; or such other company specific ratemaking or accounting treatment ordered by the commission in any case involving the rates of a specific company, or in other accounting directives issued by the commission.
- (a) All local exchange telecommunications companies shall account as of January 1, 1988, for any embedded jurisdictional ratemaking differences by incorporating any previous jurisdictional differences side-records accounts, and any other accounting directives made by the commission, into the appropriate jurisdictional differences account.
- (b) All companies shall expense currently any costs associated with the implementation of Part 32.
- (c) During the period beginning January 1, 1988, and concluding December 31, 1988, each telecommunications company required to file monthly or quarterly reports shall file its periodic reports showing, at a minimum, total revenues, expenses, taxes, net operating income and

rate base. To the extent possible, prior periods should be restated for purposes of data continuity. After December 31, 1988 normal reporting requirements will resume.

(d) All companies shall keep subsidiary records as may be necessary to report readily the source of Washington intrastate local exchange network services revenues by residential and business class of service.

- (e) All telecommunication companies subject to this rule shall keep subsidiary accounts in Account 5084—State access revenue, showing separately intrastate revenues from end users (subscriber line charges), ((special access revenues, and)) interLATA and intraLATA access revenues((, which shall be identified as either)) by access element, i.e., special access, local transport, etc., and traffic sensitive, non((=))traffic sensitive, independent company settlements, or other access revenues.
- (f) Any company filing with the FCC reports in compliance with the requirements of Part 32, Paragraph 32.25 of Subpart B, Unusual Items and Contingent Liabilities, relating to extraordinary items, prior period adjustments, or contingent liabilities shall file a copy of such report concurrently with this commission.
- (g) As to a leased asset which is or has been used in the provision of utility service, unless an alternate accounting treatment has been specifically approved by the commission, any company which capitalizes leases in accordance with FASB-13 shall capitalize such leases at the lower of their original cost or the present value of the minimum lease payments. For purposes of this section "original cost" is defined as the net book value of the leased property to the lessor at the inception of the lease. If all efforts by a company to obtain original cost information fail, and the original cost can not be reasonably estimated, then the companies will file a request with the commission seeking approval to record the asset at the lower of the fair market value of the asset or the present value of the minimum lease payments.

When the asset in question has never been used in the provision of utility service, any company which capitalizes leases in accordance with FASB-13 shall capitalize such leases at the lower of their fair market value or the present value of the minimum lease payments.

- (h) Unless specific exceptions are granted, or required, all companies shall keep records for ratemaking and/or booking purposes which flow-through tax benefits to the extent permitted by federal tax regulations. Any jurisdictional ratemaking differences, created by this rule, shall be reflected in accounts provided in Part 32 for jurisdictional differences, more specifically Accounts 1500, 4370, and 7910. See sections 3(i) and 3(m) for further exceptions to this rule.
- (i) As to compensated absences and sick pay, if payment of nonvesting accumulated sick pay benefits depends on the future illness of an employee, companies shall not accrue a liability for such an expense for purposes of portraying results of operations until such sick pay is actually paid. In addition, if a company accrues expenses for compensated absences before such expenses are actually deductible for federal income tax purposes, then an exception to the flow-through accounting requirement in section 3(h) is required. In such a case, a normalized tax accounting treatment will be required.
- (j) No depreciation expense will be allowed for ratemaking purposes on amounts included in Account 2002—Property held for future telecommunications use. If a company records depreciation on amounts in this account, it shall record the jurisdictional difference in a separate subaccount of the designated jurisdictional differences accounts.
- (k) Any property acquired from a non((-))affiliate shall be recorded at its net book value at the time of the transfer. If the company wishes to record the acquisition at its acquisition cost rather than its net book value, it shall first seek approval for such accounting, providing such detail as the commission may require. If there is a jurisdictional difference in recording the cost of an acquisition, any such difference shall be recorded in a separate subaccount of the designated jurisdictional differences accounts.
- (l) Amounts booked to Account 2005—Telecommunications plant adjustment, shall be treated as non((=))operating investment, and shall not be included in any rate base account without the expressed permission of the commission. Unless an alternate treatment has been authorized by the commission, any amortization taken on amounts in Account 2005 will be treated as though charged to Account 7360—Other nonoperating income, or other nonoperating accounts as required.
- (m) If a company is allowed to convert to a GAAP accounting treatment of an item, or allowed other accounting changes which call for the accrual of expenses before such expenses are deductible for federal income tax purposes, an exception to the flow-through accounting requirement in section 3(h) is required. In such event, a normalized tax accounting treatment will be required.

- (4) The annual report form promulgated by the Federal Communications Commission is hereby adopted for purposes of annually reporting to this commission by ((all)) Class A telecommunications companies. The annual report forms for Class B telecommunication companies shall be published by the commission. The annual report shall be filed with the commission as soon after the close of each calendar year as possible but in no event later than May 1 of the succeeding year. Companies may also be required to include certain supplemental information in the annual report, such as the status of all jurisdictional differences accounts and subaccounts for the period. This supplemental information will be described in the mailing of the annual reports, or in other sections of this rule (see sections (7), (8), and (9)).
- (5) The total company results of operations reported by each telecommunications company in its annual report shall agree with the results of operations shown on its books and records.
- (6) All telecommunications companies having multistate operations shall maintain records in such detail that the costs of property located and business done in this state in accordance with state geographic boundaries can be readily ascertained.
- (7) All telecommunications companies having multistate operations shall report to this commission at least once each year, as a supplement to its annual report, such allocations between states as are requested by the commission from time to time for each utility. Any allocations required in developing results of operations for the state of Washington separately shall be accomplished on a basis acceptable to the commission. In these supplemental reports, adjustments will be made to incorporate Washington intrastate amounts in the jurisdictional differences accounts.
- (8) Each telecommunications company shall file, as a supplement to the annual report, the allocation adjustments required to separate their regulated costs from their nonregulated costs in accordance with FCC Part 64.
- (9) Each telecommunications company shall file annually with the commission, an "annual separations cost study" on a form to be published by the commission. The report shall accompany the annual report for Class A companies. The Class B companies shall file it with the commission by June 30 of each year.

(10) Each telecommunications company shall file with the commission periodic results of operations statements showing total Washington per books, restating adjustments to per books, total Washington per books restated, and Washington restated intrastate results of operations.

Class A companies shall file the periodic results of operations statements on a monthly basis. Class A companies shall show monthly and twelve-month ended results on the statement. Class B companies shall file the reports semiannually. Class B companies shall show semiannual and twelve-month ended results on the periodic results of operations statements. The results of operations statements shall be due within two months after the end of the period covered.

The periodic results of operations statements shall be on a commission basis and restated for any out-of-period items, nonoperating, nonrecurring, extraordinary items, or any other item that materially distorts test period earnings or expenses. By use of notes, an explanation of the restating adjustments shall accompany the results of operations statement.

"Commission basis" means that the rate base includes those standard rate base components that have been historically accepted by the commission for ratemaking.

The telecommunications companies shall use their most current allocation factors to develop the Washington intrastate results of operations.

(11) This rule shall not supersede any reporting requirements specified in a commission order, nor shall it be construed to limit the commission's ability to request additional information on a company specific basis as is deemed necessary.

(12) The annual budget of expenditures form for budgetary reporting ((by all)) for telecommunications companies ((having \$25,000 or more in annual revenue)) will be published by this commission in accordance with chapter 480-140 WAC.

(((9))) (13) The requirements of this section shall not apply to telecommunications companies classified by the commission as competitive, and subject to WAC 480-120-033. (((10))) (14) There shall be no departure from the foregoing except as specifically authorized by the commission.

WAC 248-14-298 RESPITE SERVICES. (1) The provisions of this section apply to all respite services provided in nursing homes.

- (ii) A respite care assessment and plan of care done by an area agency on aging under contract with the department may be used by a nursing home to obtain the information required by this subsection.
- (b) The nursing home shall complete a simple nursing assessment upon admission. The nursing home may use an assessment provided by an area agency on aging, if the nursing home reviews and verifies the assessment. The remainder is the grant amount for the second month of eligibility.

 - (v) The agreement is signed by the lender and the borrower.
- (c) The department shall not consider as income repayments to a recipient of money previously loaned by the recipient to another party since the loan represents income or resources already considered in computing need.
 - (i) The department shall verify the facts of the loan.

WSR 89-15-057 EMERGENCY RULES DEPARTMENT OF HEALTH

[Order 2832—Filed July 19, 1989, 4:03 p.m.]

Date of Adoption: July 10, 1989.

Purpose: These amendments bring the affected program's rule into compliance with the new Administrative Procedure Act, chapter 34.05 RCW and with sections 95 and 96, chapter 175, Laws of 1989.

Citation of Existing Rules Affected by this Order: Amending chapters 248-27, 248-31 and 248-36 WAC.

Statutory Authority for Adoption: RCW 70.126.040 and 34.05.220 (1)(a).

Pursuant to RCW 34.05.350 the agency for good cause finds that immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.

Reasons for this Finding: Those permanent rules become effective July 7, 1989. Statutes that become effective on July 1 affect the rules. Those emergency rules are necessary so these rules comply with the new statutory provision.

Effective Date of Rule: Immediately.

July 10, 1989 Lucille Christenson Acting Secretary

WSR 89-15-060 PROPOSED RULES DEPARTMENT OF LABOR AND INDUSTRIES

[Filed July 19, 1989, 4:44 p.m.]

Original Notice.

Title of Rule: Overtime for truck and bus drivers, chapter 296-128 WAC.

Purpose: To implement 1989 amendments to RCW 49.46.130.

Statutory Authority for Adoption: RCW 43.22.270.

Statute Being Implemented: RCW 49.46.130 and chapter 104, Laws of 1989.

Summary: Establishing recordkeeping requirements and alternative methods of computing overtime pay for truck and bus drivers subject to the Federal Motor Carriers Act.

Reasons Supporting Proposal: Guidelines for employers, employees and the department are necessary to determine whether alternative methods of computing overtime pay meet the statutory standard established by the 1989 amendments.

Name of Agency Personnel Responsible for Drafting, Implementation and Enforcement: Mark M. McDermott, 925 Plum Street, Olympia, 753-3487.

Name of Proponent: Department of Labor and Industries, governmental.

Rule is not necessitated by federal law, federal or state court decision.

Explanation of Rule, its Purpose, and Anticipated Effects: Adopting a new section to require employers to maintain records to enable the department to determine employer compliance with overtime laws. The records also are available to past and present employees. The formulas used to determine a pay rate that includes expected overtime is available also to job applicants. Adopting a new section authorizing employers to establish a uniform rate of pay that distributes projected overtime pay over the average number of hours projected to be worked. Minimum standards for calculating a uniform rate of pay are set forth. A formula to determine a uniform rate of pay is suggested. It is expected that the rules will assist employers in implementing alternative methods of computing overtime, as authorized by the 1989 amendments to RCW 49.46.130.

Proposal does not change existing rules.

Small Business Economic Impact Statement: The Washington Regulatory Fairness Act, chapter 19.58

RCW, requires that proposed rules which have an economic impact on more than 20 percent of all industries or more than 10 percent of the business in any one industry shall be reviewed to determine if the cost of coming into compliance with the proposed agency rules will create a disproportionately higher economic burden on small business in comparison with the cost of compliance for large business. The act defines a small business as an employer with fifty or fewer employees. With respect to WAC 296-128-011 and 296-128-012, the findings of the agency are as follows: The legislature has given the department the responsibility to enforce chapter 49.46 RCW, the Washington Minimum Wage Act, including RCW 49.46.130 establishing requirements for overtime pay; the rules establish procedures and guidelines to allow all affected parties to have better knowledge of statutory obligations; many trucking companies pay workers based on mileage or other work performed, and not on an hourly basis. A decision of the Washington Supreme Court clarified that the hourly overtime pay requirements of RCW 49.46.130 apply to truck drivers subject to the provisions of the Federal Motor Carriers Act. The 1989 legislature amended RCW 49.46.130 to exempt employers from paying time and a half for a workweek over forty hours, as long as the compensation system under which truck and bus drivers are paid includes overtime pay reasonably equivalent to that otherwise required by RCW 49.46.130; and the proposed rules establish guidelines for employers who wish to take advantage of the 1989 amendments to RCW 49.46.130. Although the rules may require additional recordkeeping, the alternative compensation system authorized by the 1989 amendments is an option an employer may choose. The burdens of recordkeeping and calculating a reasonably equivalent rate should be the same for any business that chooses to develop an alternative compensation system.

NEW SECTION

WAC 296-128-011 SPECIAL RECORDKEEPING REQUIRE-MENTS. (1) In addition to the records required by WAC 296-128-010, employers who employ individuals as truck or bus drivers subject to the provisions of the Federal Motor Carrier Act shall maintain records indicating the base rate of pay, the overtime rate of pay, the hours worked by each employee for each type of work, and the formulas and projected work hours used to determine a uniform rate of pay pursuant to WAC 296-128-012. The records shall indicate the period of time for which the base rate of pay and the overtime rate of pay are in effect.

For the purposes of this section and WAC 296-128-012, "base rate of pay" means the amount of compensation paid per unit of work in a workweek of forty hours or less. The base rate of pay may be based on work units such as mileage, performance of specified duties, a specified percentage of the gross proceeds charged for specified work, or other basis for compensation agreed upon by the employer and employee.

"Overtime rate of pay" means the amount of compensation paid for hours worked within the state of Washington in excess of forty hours per week and shall be at least one and one-half times the base rate of pay.

(2) The records required by this section shall be made available by the employer at the request of the department. Any current or past employee may obtain copies of the formula, the base rate of pay, the overtime rate of pay, and that employee's records. Job applicants seeking employment by the employer as truck or bus drivers subject to the provisions of the Federal Motor Carrier Act, may obtain copies of the formula, the base rate of pay, and the overtime rate of pay.

NEW SECTION

WAC 296-128-012 OVERTIME FOR TRUCK AND BUS DRIVERS. (1)(a) The compensation system under which a truck or bus driver subject to the provisions of the Federal Motor Carrier Act is paid shall include overtime pay at least reasonably equivalent to that required by RCW 49.46.130 for working within the state of Washington in excess of forty hours a week. To meet this requirement, an employer may, with notice to the employee, establish a uniform rate of pay for all work performed by a truck or bus driver subject to the provisions of the Federal Motor Carrier Act. The uniform rate of pay shall be determined using the following formula or an alternative formula developed by an employer that, at a minimum, compensates hours worked within the state of Washington in excess of forty hours per week at an overtime rate of pay and distributes the projected overtime pay over the average number of hours projected to be worked:

- 1. Define work unit first. E.g., miles, loading, unloading, other.
- Average number of Average number of work work units = units accomplished per week

per hour Average number of hours projected to be worked per week

- Weekly Base Rate= Number of units per hour x 40 hours x base rate of pay
- 4. Weekly Overtime = Number of units per hour rate x number of hours over 40 x overtime rate of pay
- Total weekly pay = Weekly base rate plus weekly overtime rate

Example: A truck driver is paid on a mileage basis for a two hundred thirty mile trip performed about ten times a week. The base rate of pay is twenty cents a mile. The overtime rate of pay is thirty cents a mile. The average length of the trip is four and one-half hours.

1. 2300 mi. divided by 45 hours = 51.1 miles/ hour

wk. wk.

- (a) 51.1 miles/hour times 40 hours times .20/ mile = \$408.80
 - (b) 51.1 miles/hour times 5 hours = 255.5 miles
 - (c) 255.5 miles times .30/mile = \$76.65
 (d) \$408.80 plus \$76.65 = \$485.45 divided by 2300 miles = 21.1 cents mile
- (b) In using a formula to determine a uniform rate of pay, the average number of hours projected to be worked and the average number of work units accomplished per week shall be determined by dividing the actual number of hours worked and work units accomplished by persons performing the same type of work over at least a twenty-six week time period divided by that number of weeks.
- (c) The department shall evaluate the uniform rate of pay determined by an employer using an alternative formula over not less than a twenty-six week time period in order to determine whether the uniform rate of pay established by the alternative formula results in the driver receiving compensation reasonably equivalent to one and one-half times the base rate of pay for actual hours worked within the state of Washington in excess of forty hours per week.
- (2) Where an employee receives a different base rate of pay depending on the type of work performed, the rate that is paid or used in

the formula for hours worked within the state of Washington in excess of forty hours per week shall be at least the overtime rate of pay for the type of work in which most hours were worked.

AMENDATORY SECTION (Amending Resolution No. 88-2, filed 5/11/88)

WAC 154-130-020 SALARY REDUCTION AGREEMENT. The salary reduction agreement is a contract whereby the employee elects irrevocably to forgo future wage payments from the employer in an amount equal to the maximum elected for the plan year. The reduction will be taken in equal amounts for each pay period during the plan year or, in the case of an employee who becomes eligible during the plan year, the remaining portion of the plan year. The agreement will require a participant to provide the Social Security number of the participant and the participant's spouse, if any, names and birth dates

of dependents regarding whom reimbursement of dependent care expenses will be sought, and medical, family, and other information deemed necessary by the committee for the operation of the plan. Pursuant to federal income tax regulations, once a salary reduction agreement has been entered for a plan year it may not be revoked except in the event of a change in family status as defined in WAC 154-130-030. A participant who separates from service and returns to service with the employer during the same plan year may participate upon return only to the extent allowed by Treasury Department regulations promulgated under sections 125 and 129 of the Internal Revenue Code.

AMENDATORY SECTION (Amending Resolution No. 88-2, filed 5/11/88)

WAC 154-130-030 CHANGES IN FAMILY STATUS. A participant is permitted to revoke a salary reduction agreement after the period of coverage has commenced and to enter a new salary reduction agreement regarding the remainder of the plan year if both the revocation and new election are on account of and consistent with any of the following changes in family status:

- (1) Marriage;
- (2) Divorce or legal separation;
- (3) Death of a spouse or dependent;
- (4) Birth or adoption of a child or addition of a dependent to the eligible employee's household;
 - (5) Termination of employment of a spouse;
 - (6) Employment of an unemployed spouse; and
- (7) A change in the eligible employee's or eligible employee's spouse's working hours which significantly alters the need for dependent care, e.g., a shift from full time to part time, part time to full time, or a change to or from leave without pay status.

(8) Such other events that the committee determines will permit a change or revocation of an election during a plan year under regulations and rulings of the Internal Revenue Service.

An eligible employee may also become a participant in the plan on the basis of a change in family status.

$\frac{AMENDATORY\ SECTION}{5/11/88)}$ (Amending Resolution No. 88-2, filed

WAC 154-140-030 REDUCTION OF BENEFITS. The committee may reduce the salary reduction amount of a participant and the corresponding benefit payable to such participant to the extent necessary to assure that the plan does not discriminate in favor of highly-compensated employees in violation of sections 89, 125, or 129 of the Internal Revenue Code, or any other applicable provision of law. Any such reduction of benefits shall be made on a reasonable and non-discriminatory basis. The discrimination testing day, to the extent one is required by sections 89, 125, or 129 of the Internal Revenue Code, shall be May 31 of each plan year.

THE WASHINGTON STATE REGISTER, published pursuant to RCW 34.08.020, is distributed on the first and third Wednesdays of each month. The Register contains the full text of proposed, emergency, and permanently adopted rules of state agencies, executive orders of the governor, notices of public meetings of state agencies, rules of the state supreme court, summaries of attorney general opinions, and juvenile disposition standards which have been filed in the code reviser's office prior to the pertinent closing date for that issue of the Register. A cumulative table of existing sections of the Washington Administrative Code (WAC) affected by a particular agency action guides the user to the proper volume of the Register.

The code reviser's office has established an annual subscription price of \$150 for the Register, and single copies will cost \$7. Sales tax of 7.8% now applies to all sales other than to state agencies. State law requires payment in advance. To subscribe to the Register, please complete the order form above and forward it to the address indicated, accompanied by your check or money order in the amount of \$161.70 (\$150 for state agencies) payable to the code reviser's office.
